OVER 20,000 DISTRICTS USE BRISK TO:

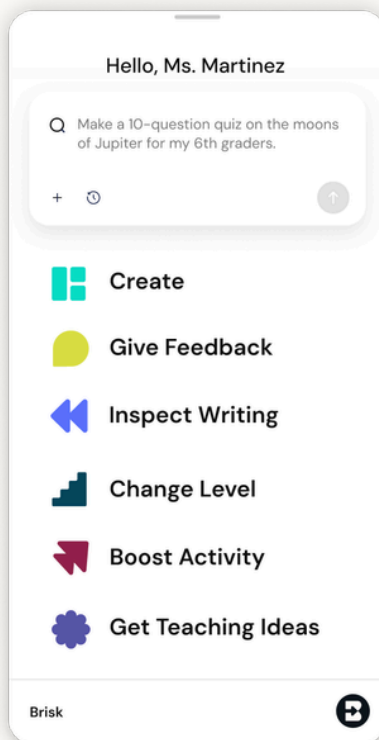

Implement strategic AI governance guardrails

Brisk gives leaders visibility into how and when teachers are using Brisk tools. With Brisk's Premium plan, leaders can proactively shape this usage by setting guardrails that align with district AI policies.

Integrate AI into established teacher workflows

Brisk works directly in the tools teachers already use, eliminating the headaches that usually come with the adoption of a new platform. No costly onboarding, change management, or learning curve.

The Brisk extension

Achieve personalized instruction at scale

Brisk helps teachers create differentiated resources and generate rubric-aligned feedback in seconds. With this heavy lifting taken care of, teachers can focus on supporting students face to face.

Promote curriculum fidelity across classrooms

With Brisk's Curriculum Intelligence, every resource teachers create is automatically aligned with their district's scope, sequence, and pacing, ensuring adopted curriculum actually shows up in the classroom.

ONE PLATFORM, FLEXIBLE LAYERING

Brisk's **Premium plan** gives schools and districts the power to deliver instruction that reflects their state standards, classroom context, rubrics, and unique priorities. Leaders also get real-time admin insights, access to professional learning resources, and a dedicated support team.

Districts that want to expand their visibility can add Brisk layers including:
