

CANADIAN CHEER WORLDS FACE-OFF

Canadian Cheer FaceOff is designed to bring together some of the best teams from across the country, while also providing representation from a wide range of programs. Invitations are carefully considered to create a competitive and diverse event field, with selections made at the discretion of the event producer.

Initial invites will be extended in late February/early March 2027, with additional Wildcard announcements in March 2027.

If your team would like to be considered for an invitation, please ensure that you have completed the opt-in form. While opting-in does not guarantee an invitation, it does ensure that your team is included in the consideration process.

Once invitations have been accepted, participating teams will receive a detailed event document outlining the competition format, expectations and other important information.

We look forward to bringing together an outstanding group of teams and programs for another exceptional competitive experience.

Canadian Cheer reserves the right to amend this document, invite event distribution and method of distribution at any time.
