

CANADIAN CHEER DIVISION SPLIT POLICY

Purpose: The purpose of this policy is to outline the guidelines and procedures for division splits at Canadian cheer events, ensuring a fair and consistent approach in the placement of teams into divisions. This policy will be followed to maintain competitive balance and allow for a smooth event experience for all participants.

Policy Statement

Division Split Guidelines: Division splits at Canadian cheer events will be determined based on a ratio system, ensuring that teams are placed in divisions of a manageable and competitive size. These splits will consider the number of teams registered in a division, as well as each team's roster size.

When Division Splits are Considered: Division splits will be considered when a division has 10 or more teams registered. This ensures that divisions are not overcrowded and allows for a better competitive balance.

Roster and Division Confirmation: The final decision on division splits will be based on the confirmed roster sizes of teams and the number of teams in the division. Once division splits are made, they will not change after the final confirmation date.

Confirmation Date: The date by which all teams must confirm their rosters and division placement will be communicated to all participants. After this date, no further changes will be allowed, and division splits will be considered final.

Fairness and Consistency: It is important that division splits are made with fairness and consistency to ensure that all teams have a competitive opportunity. The event organizers will review all division splits prior to the event to ensure they align with the intended competitive structure.

Communication: Teams will be notified of their division placement and any changes to division splits prior to the event. All updates and confirmations will be shared in a timely manner, allowing teams to make any necessary preparations.

Conclusion: This policy on division splits aims to ensure that all teams are placed in divisions that reflect their roster size and the overall number of teams participating. By adhering to these guidelines, we aim to create a competitive and fair environment for all participants at Canadian cheer events.

Effective Date: This policy is effective immediately and will be adhered to for all future Canadian cheer events.
