Velocity

Modern, intuitive, browser-based core processing

All-in-One System

Accounting, processing, member services, and reporting all happen in the same place... and they talk to each other.

Integrated CRM

With Notebook, you can easily track vendor, invoice, report, and member communications and operational notes, all without leaving Velocity.

Advanced Reporting

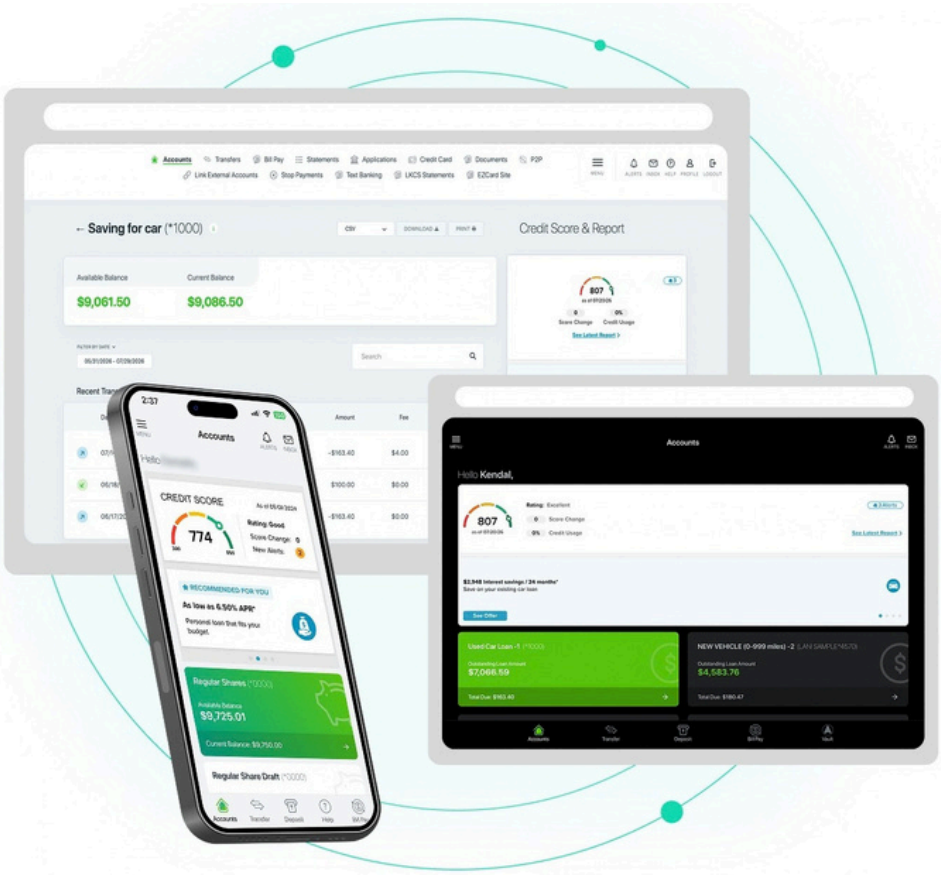

With Advanced Analytics, you can create custom graphs, dashboards, pivot tables, and more. We believe you should be able to use your data.

Quick to Train

Many credit unions say they have tellers and loan officers ready to work independently in a few days (or less!) with how easy Velocity is to learn.

On-the-Go

Simple, yet expansive digital banking for your members

Any Screen You Choose

Our dynamic offering provides a seamless experience on any screen - laptops, tablets, cellphones - in portrait or landscape mode.

Easy on the Eyes

You should be able to check your bank account at any time of day. That's why we offer light and dark mode in our mobile app.

Connected to the Core

Gone are the days when you have to wonder whether your core and digital provider talk to each other, process the same, etc.

Integrations Galore

From money movement to credit card SSO, and remote check deposit to bill pay, we have the solutions your members need.
