

CONTROVERSIAL WEAPONS RADAR

Key Benefits

Access research on all public and private companies involved in controversial weapons

Clear and intuitive explanation of the nature of involvement, including sources and references

Receive support from one of the most experienced client servicing teams in the industry

Speak directly to defense analysts who are able to guide you in developing and implementing your own defense policy

Receive quarterly updates as a pdf and Excel report

Sustainalytics' Controversial Weapons Radar enables investors to identify private and public companies involved in weapons that can have a disproportionate and indiscriminate impact on civilian populations, sometimes even years after a conflict has ended.

With up-to-date information on companies' involvement in the development, production, sale or maintenance of controversial weapons, investors can help ensure that their portfolios are aligned with relevant regulation and internal policies aimed at managing reputational risks.

Important Legislation

1 **Anti-Personnel Mine Ban Convention** (1999)

2 **Biological and Toxin Weapons Convention** (1972)

3 **Chemical Weapons Convention** (1997)

4 **Convention on Cluster Munitions** (2008)

5 **Non-proliferation Treaty** (1968)

Product Description

In-depth Analysis
High quality analysis describing how and on what basis a company is considered involved in controversial weapons, including through ownership relations

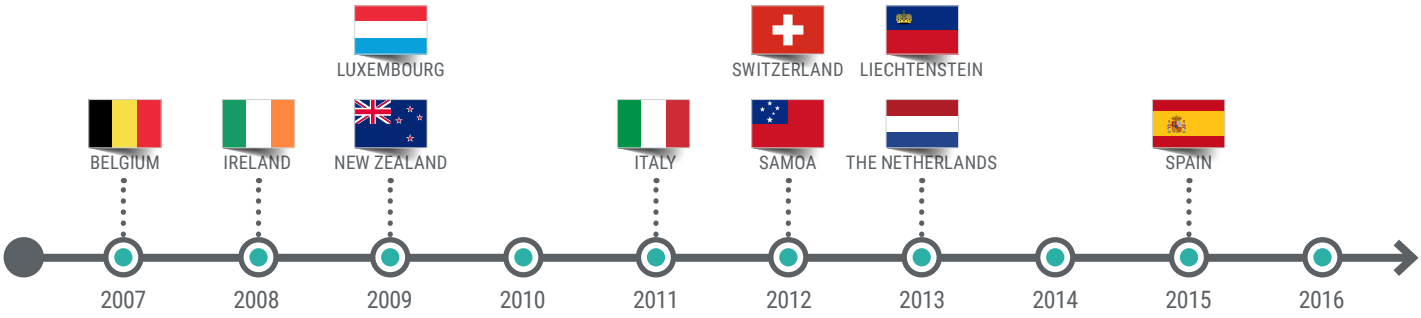

Quarterly Research Updates
Companies with involvement assessed on a quarterly basis, complemented with screenings for new involvement
