Risk Intelligence Use

How does your firm gather risk intelligence?

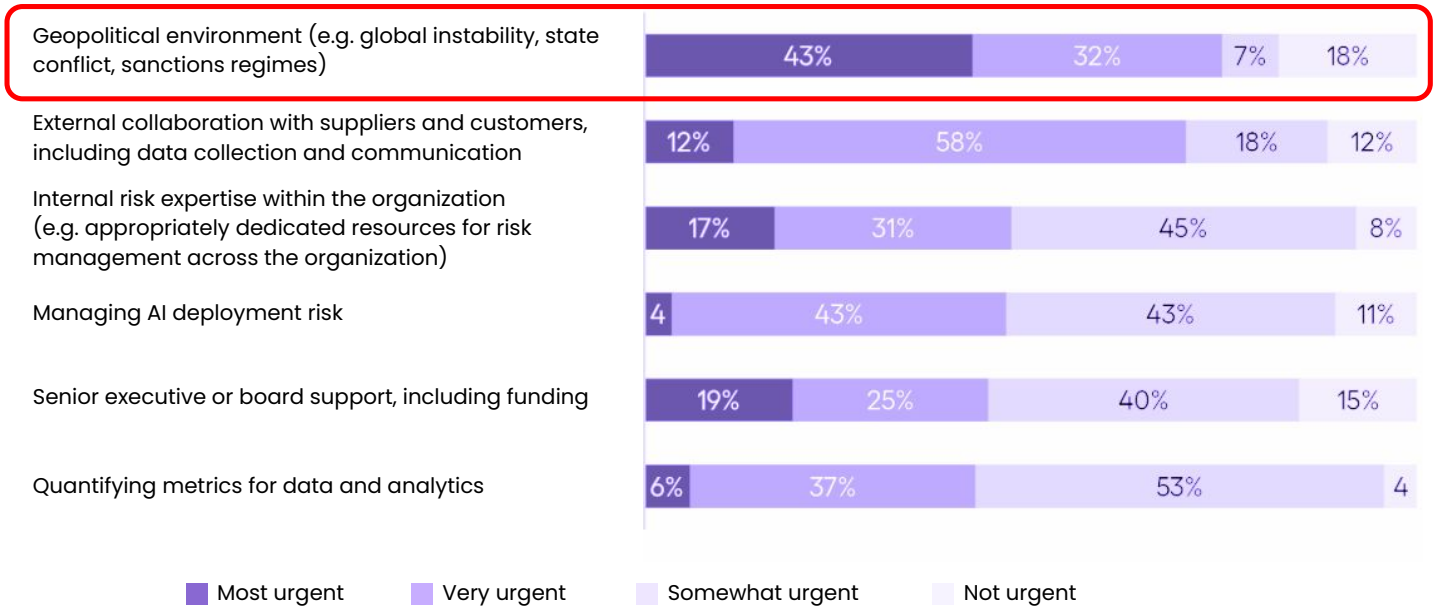

- 34%: We manually scrape public data feeds for risk intelligence (Google, X, etc.)
- 33%: We use both in-house and commercial software
- 15%: We are not using any form of risk intelligence
- 10%: We use in-house risk intelligence software (including AI and machine learning tools to aggregate risk signals)
- 8%: We use commercial risk intelligence software
