CTECH CONSULTING FIRM, LLC

Capability Statement

Data center infrastructure | Field services | Technical staffing

COMPANY & REGIONS

CTech Consulting Firm, LLC supports data center operators, contractors and project teams in Virginia and Georgia, including the Atlanta metro area.

CORE SERVICES

Cable pathways: basket tray extensions and sleeve coordination.
Containment and rack support: hot aisle containment, plates, sealing and equipment placement support.
Field services and logistics: material staging, equipment movement and work-area readiness.
Technical staffing and project coordination: crews, mobilization, reporting, scope and issue tracking.

REPRESENTATIVE EXPERIENCE

Atlanta metro data center workstreams include containment plate installation and taping, basket tray and pathway coordination, and daily crew and progress reporting. Customer and site identifiers are omitted.

DELIVERY APPROACH

A designated project contact coordinates scope, personnel, access and orientation. Daily progress reporting, safety communication, housekeeping and quality checks support field delivery. Scope changes, punch items and closeout documentation are coordinated with the project team.

PROCUREMENT & PROJECT INQUIRIES

Email: info@ctechconsultingfirm.com
Website: www.ctechconsultingfirm.com
Send the project location, service needed, timeline and scope summary. Required qualifications, insurance documentation and site-specific approvals are reviewed during procurement.
