WORKPLACE FIRST AID

Automated External Defibrillator (AED) Cabinet

with Standard AED

AED-2100

Cardiac emergencies don't wait. When sudden cardiac arrest strikes, survival odds drop by the minute and the difference is whether someone nearby can act immediately, with confidence. Our AED cabinet puts that capability within reach, with voice-guided instructions that walk any team member through every step and a fast-response CPR kit with essential supplies.

Our included monthly service keeps your cabinet inspection-ready at all times. Pads, batteries, and CPR supplies are replenished or replaced as needed, and every visit includes an updated Certificate of Compliance all under a single flat rate with no surprise costs.

Features:

- Lightweight AED with voice-guided instructions for untrained responders
- Manufacturer registration support
- Includes fast-response CPR kit with rescue mask, razor, and essential response supplies
- Alarmed door signals emergency use and deters theft
- Wall-mounted, durable, and highly visible industrial cabinet

Our Service Includes:

- Routine inspection at least monthly
- Replenishment of all depleted, expired, or soiled pads, batteries, and CPR kits
- Restoration of the cabinet to its original, just-installed condition
- Provision of an updated Certificate of Compliance after every inspection
- Service and supplies covered under a single, predictable flat rate
