

ELIXIR
NETWORK

BROCHURE

KEY HIGHLIGHTS

For over three decades, Elixir network has been engineering infrastructure solutions that combine innovation, quality, and performance. Every product is manufactured with uncompromising attention to detail, ensuring exceptional durability, seamless functionality, and the confidence to support mission-critical environments across industries.

ABOUT ELIXIR NETWORK

Elixir Network Pvt. Ltd. is an ISO 9001:2015-certified manufacturer and supplier of professional rack, enclosure, and structured networking solutions. Established in 1996, the company brings decades of engineering experience to the design and manufacturing of products that support critical IT, surveillance, telecommunications, data networking, and infrastructure applications across India.

Our comprehensive product portfolio includes floor-standing server racks, wall-mount network racks, DVR racks, outdoor racks IP55 and IP65, open-frame racks, telecom racks, CAT6 networking cables, CCTV cables, patch cords, DVR and POE junction boxes, rack accessories, and customised enclosure solutions. Each product is developed to provide organised equipment integration, efficient ventilation, secure cable management, dependable protection, and long-term operational reliability.

Supported by advanced in-house manufacturing capabilities—including CNC turret punching machine, CNC bending machine, CNC shearing, specialised welding machines, and powder coating with 7 tank cleaning system. All electrical accessories are manufactured in-house. We maintain close control over every stage of production. Our integrated manufacturing infrastructure enables us to deliver consistent quality, refined finishes, structural integrity, and application-specific solutions that meet the evolving requirements of modern networking environments.

OUR PRODUCTS

WALL MOUNT NETWORK RACKS

Elixir Rack's ERWM Series **Wall-Mount Rack** is a thoughtfully engineered, high-performance enclosure designed to deliver exceptional functionality, durability and value. Manufactured from premium-grade steel sheets through precision punching, forming and welding processes, each rack is finished with a superior-quality powder coating for enhanced protection and a refined appearance.

Produced under stringent ISO manufacturing and quality management standards, the ERWM Series ensures consistent performance and dependable quality. Ideally suited for LAN and WAN network applications, these robust welded enclosures provide a secure, flexible and professionally organised solution for housing essential IT and networking equipment.

FEATURES

- Comply DIN-41494 and all 19" International Standard
- Front Glass/Acrylic Door with Lock
- Fan Mounting Provision on Top
- Load Carrying Capacity of 35 Kgs
- Cable Entry Provision from Top and Bottom
- Available in Welded or SKD Condition
- Complete Hybrid Powder Coating
