Property Overview

A Silver Lake landmark, reimagined. Housed in a restored 1931 church, Hotel Lucile blends historic architecture with modern design across 25 thoughtfully appointed rooms, a rooftop terrace, a serene pool, and a restaurant carved from the original chapel. Just off Sunset Boulevard but set at its own pace, Lucile offers travelers and locals a soulful place to gather, rest, and celebrate.

Guest Rooms

A balance of old and new, each of Lucile’s 25 guest rooms offers a unique narrative, seamlessly integrating the building’s ecclesiastical roots with modern comforts. Original architectural elements—such as exposed wooden beams and vintage tilework—are complemented by contemporary furnishings and [curated] artwork. Natural light filters through restored stained-glass windows, casting colorful patterns that dance across the rooms.

Bar & Restaurant

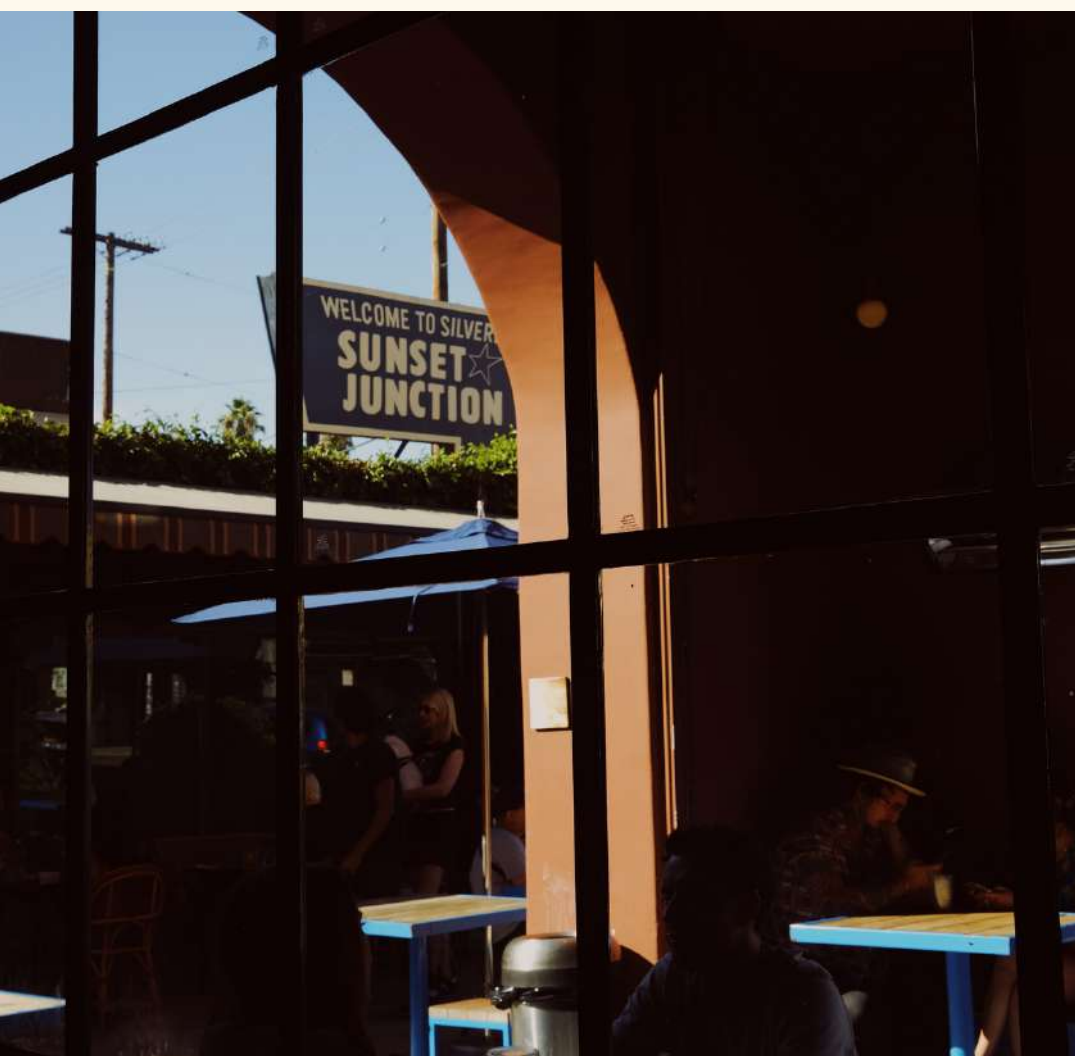

Lucile’s dining destination is housed within a 1931 Romanesque chapel; a culinary haven where the sacred ambiance of the past meets the vibrant flavors of the present. High vaulted ceilings and preserved stained glass set the stage for a dining experience that celebrates the ritual of gathering through an inspired menu blending the flavors of the American South with the techniques and ingredients of Southern France. From slow dinners to lively brunches, dishes made with locally sourced ingredients will be the consistent offering — a gathering space for guests and locals alike.

Neighborhood

Perched at the corner of Griffith Park Boulevard and Lucile Avenue, the hotel sits quietly in the heart of Silver Lake, one of Los Angeles' most dynamic and storied neighborhoods. Steps from the Reservoir, guests can wander to local coffee shops, browse indie boutiques, or take in street art along the way. The rooftop offers panoramic views of the city skyline — a vantage point to LA's iconic Griffith Observatory and Hollywood sign.
