

Sustainability Development Policy at SpaceAM Ltd.

1. Introduction

At SpaceAM Ltd., we are committed to promoting sustainability in all aspects of our operations and advancing technologies that contribute to a more sustainable future. Our mission is to ensure that our activities minimise environmental impact while fostering innovation in advanced materials for space exploration and other industries.

2. Policy Objectives

The objectives of this policy aim to integrate environmental awareness, social responsibility, and economic growth into its operations and innovation processes. The company is committed to reducing its environmental footprint by prioritising resource efficiency, minimising waste, and adopting renewable energy solutions wherever feasible.

Economically, the company seeks to drive sustainable growth through innovative materials and technologies that align with the principles of a circular economy. These objectives underline SpaceAM's dedication to creating long-term value while addressing Britain's and global sustainability challenges.

3. Resource Efficiency

- Optimise the use of raw materials and energy in our manufacturing and R&D processes.
- Promote recycling and reuse of materials wherever possible.

4. Environmental Impact

- Reduce emissions and waste generated by our operations.
- Explore eco-friendly alternatives in the development of new products and technologies.

5. Innovation for Sustainability

- Develop advanced materials and solutions that enable sustainable practices in space and terrestrial applications.
- Support clients and partners in achieving their sustainability goals.

6. Ethical Sourcing and Operations

- Work with suppliers and partners who share our commitment to environmental and social responsibility.
- Ensure compliance with relevant environmental laws and industry standards.

7. Community and Education

- Promote awareness and education about sustainability within our team and the broader community.
- Participate in initiatives that support sustainable development.

8. Monitoring and Accountability

To ensure this policy is effective, SpaceAM Ltd will:

- Regularly review sustainability in our processes.
- Set measurable objectives to improve sustainability.
- Report progress to senior management and stakeholders annually.

9. Implementation and Review

SpaceAM Ltd. will regularly monitor, review, and update this policy to reflect advancements in sustainability practices and align with global standards. We aim to embed sustainability into our company culture and decision-making processes, ensuring a lasting positive impact on the environment and society wherever possible.

Approval and Effective Date

This Sustainability Development Policy has been approved by the Board of Directors of SpaceAM Ltd and is effective as of 1st January 2025.
