

BENMORE PLAN

Designed with modern family living in mind, the Benmore combines generous spaces with practical features to create a home that's as functional as it is inviting. One of the Benmore's standout features is its drive-through double garage. It offers the flexibility to securely store a boat, trailer, jet ski, or additional vehicles behind the home, while still maintaining easy access to the backyard. It's an ideal solution for Kiwi families who need extra storage without sacrificing outdoor space.
