We envision graduates who know who they are, believe in what they can become, and possess the knowledge, character, skills, and confidence to emerge as resilient, self-sufficient, and ethical leaders, prepared to thrive and serve in a changing world.

1. CRITICAL AND REFLECTIVE THINKER

Think Deeply. Reflect Thoughtfully. Pursue Self-Mastery and Lifelong Learning.

A Prestige graduate never stops becoming and understands that self-actualization is the end goal: they think deeply to understand the complexities of the world, reflect thoughtfully to understand themselves and their place within it, and recognize that self-mastery is a lifelong pursuit that requires continuous learning, reflection, pivoting, and growth.

2. PRINCIPLED CHANGEMAKER

A Prestige graduate is grounded in their principles, guided by a strong sense of identity, purpose, and social responsibility, and committed to doing what is right even when it is difficult or unpopular; they recognize their power and influence as a responsibility to confront the challenges of today, advocate for others, expand opportunity, and create meaningful change in the world around them
