

3 Impressive Songs

CHEAT SHEET

Famous, recognizable, & easier than they sound.

You don't need to play Mozart to impress people. You just need to play songs they actually recognize. These three songs are famous, beautiful, and easier to learn than most beginners expect.

Each one comes with the chord progression and a direct link to the chord chart. Pull it up on your phone or tablet, put it on your piano, and start playing today.

What's in this guide

How to use Ultimate Guitar — the free tool that makes learning any song dramatically easier

Song 1 — All of Me by John Legend

Song 2 — Lean on Me by Bill Withers

Song 3 — Clocks by Coldplay

Tip: The Ultimate Guitar links in this guide are clickable. Open them on any device.

How to Use Ultimate Guitar

The fastest way to find chords for any song you want to learn.

Ultimate Guitar is a free website (and app) where you can find the chords to almost any song ever written. It's one of the most useful tools a piano student can have — and most people have no idea it exists or how to use it properly.

Here's how to get the most out of it:

Go to ultimate-guitar.com Search the song name. For example: 'Lean on Me.'

Switch to Piano view. Once you open a chord chart, tap the chord diagram at the right side of the page. You'll see an option to switch from Guitar to Piano. This shows you exactly where to put your fingers on the keys.

✨ Ultimate Guitar Pro Tips:

- Open Ultimate Guitar on a desktop and you can see all of the chords without paying for a subscription.
- Print the chord chart and put it on your piano.
- Any song you ever want to learn — search it there first.
- There are over 1.1 million chord charts on the site. The song you want is almost certainly there.

The 3 Songs

Click the button in each card to open the chord chart on Ultimate Guitar.

SONG 1 All of Me

John Legend

Key tip: The chord pattern barely changes throughout the whole song — you'll play these four chords over and over in the same order. Get them comfortable in your left hand first, then add the right hand melody on top.

[View Chords on Ultimate Guitar](#) →

SONG 2 Lean on Me

Bill Withers

Key tip: You use the same hand shape for the entire song — the chord shape barely moves. Sing the melody in your head while you play to lock in the rhythm. These are four of the most common chords in all of popular music.

Continue to the next page...

SONG 3 Clocks

Coldplay

Key tip: The right hand plays an arpeggio pattern — the notes of each chord one at a time, in a rolling motion. Block each chord shape first to learn where your fingers go, then break it into the arpeggio. The left hand plays a single root note or octave underneath.

A quick note before you go:

You're not behind. You're not too old.

The reason piano hasn't felt joyful in the past isn't you. It's that nobody handed you the right tools. These five patterns are some of those tools.

Every PIANOLY student started right where you are now.

Ready to See the Full Roadmap?

These five patterns are just one piece of the puzzle. If you want to see exactly how we take students from zero (no experience, no music background) to playing the songs they've always loved, I put together a [free training](#) that walks you through the whole path.

You'll see the exact method, the order we teach everything, and why it works so much faster than traditional lessons.

Felix watched it in retirement and decided to join. He now plays every Sunday and Wednesday for his church prayer group and performs with the worship team once a month.

Marc had tried traditional lessons for years and gotten nowhere. After going through the training and joining the program, he surprised his wife by playing their wedding song.

Results vary depending on time invested and starting experience. But what these stories show is that with the right system, progress happens faster than most people expect.
