

The Pop Piano Playbook

Four patterns. Any Chord Progression.

Almost every pop song you have ever loved was built on four piano patterns. Learn these four on any chord progression, and you can sit down and figure out almost any song you want.

That is not an exaggeration. That is just how pop music works.

Before You Begin: The Chord Progression Used in All Four Patterns

Every pattern in this guide is demonstrated on the same progression: C G Am F

C major -- C, E, G | Left hand: C + G
G major -- G, B, D | Left hand: G + D
A minor -- A, C, E | Left hand: A + E
F major -- F, A, C | Left hand: F + C

Once you know these patterns on C G Am F, apply them to any chord progression you know.

A quick note before you go:

You're not behind. You're not too old.

The reason piano hasn't felt joyful in the past isn't you. It's that nobody handed you the right tools. These five patterns are some of those tools.

Every PIANOLY student started right where you are now.

Ready to See the Full Roadmap?

These five patterns are just one piece of the puzzle. If you want to see exactly how we take students from zero (no experience, no music background) to playing the songs they've always loved, I put together a [free training](#) that walks you through the whole path.

You'll see the exact method, the order we teach everything, and why it works so much faster than traditional lessons.

Felix watched it in retirement and decided to join. He now plays every Sunday and Wednesday for his church prayer group and performs with the worship team once a month.

Marc had tried traditional lessons for years and gotten nowhere. After going through the training and joining the program, he surprised his wife by playing their wedding song.

Results vary depending on time invested and starting experience. But what these stories show is that with the right system, progress happens faster than most people expect.
