5 Chord Patterns to Play Any Style

Cheat Sheet

5 Styles: Pop. Rock. Country. Blues. Classical.

Block chords sound fine — but they make every song sound exactly the same. Once you know these five rhythm patterns, you can take any chord progression and instantly turn it into five completely different styles of music. Pop, rock, country, blues, classical — same chords, completely different feel. Pick one today and you'll sound like a different piano player by tonight.

A quick note before you go:

You're not behind. You're not too old.

The reason piano hasn't felt joyful in the past isn't you. It's that nobody handed you the right tools. These five patterns are some of those tools.

Every PIANOLY student started right where you are now.

Ready to See the Full Roadmap?

These five patterns are just one piece of the puzzle. If you want to see exactly how we take students from zero (no experience, no music background) to playing the songs they've always loved, I put together a [free training](#) that walks you through the whole path.

You'll see the exact method, the order we teach everything, and why it works so much faster than traditional lessons.

Felix watched it in retirement and decided to join. He now plays every Sunday and Wednesday for his church prayer group and performs with the worship team once a month.

Marc had tried traditional lessons for years and gotten nowhere. After going through the training and joining the program, he surprised his wife by playing their wedding song.

Results vary depending on time invested and starting experience. But what these stories show is that with the right system, progress happens faster than most people expect.
