

SHENPEI HA

(604) 771 8066

contact@shenpeiha.com

Toronto, Ontario

Self-motivated and collaborative architectural professional with experience in design support and developing design solutions. Experienced with the Ontario Building Code and applying requirements through design development and project coordination.

practice experience

2017 - Present

Henriquez Partners Architects

Vancouver and Toronto office

Intern Architect | OAA.

Worked across complex residential and institutional projects, with experience in design development, technical coordination, and delivery.

2013 - 2014

Steven Holl Architects

Beijing Office. China.

Architectural Assistant.

2013

Shigeru Ban Architects

Tokyo Office. Japan.

Architectural Intern.

education

Professional Diploma of Architecture

2014 - 2016

The CASS School of Architecture.

Bachelor of Architecture

2010 - 2013

The Manchester School of Architecture.

selected software

Rhino 3D

Grasshopper

Autodesk Revit

Adobe CC Suite

Vectorworks

Enscape

selected skills

Rezoning & Feasibility Studies

Prepared rezoning packages and feasibility studies for complex multi-residential developments.

Communication and Coordination

Coordinated consultants, municipal comments, and stakeholder input through design development and documentation.

Conducted site reviews, documented deficiencies, and coordinated contractor responses during construction.

Proposal & Documentation

Developed RFP and proposal submissions through brief analysis, research and graphic coordination.

Developed coordinated drawing packages from design development through construction documentation, including technical detailing.

See next pages for project specific contribution

selected awards

Skidmore, Owings & Merrill UK
Fellowship Winner

RIBA President Silver Medal Nominee

Experience spans multiple stages of architectural practice, from schematic design and design development through construction documentation and consultant coordination. Work has also included preparing and presenting design packages, technical coordination, and contributing to RFQ submissions as part of a larger team.

selected projects list 1 of 2

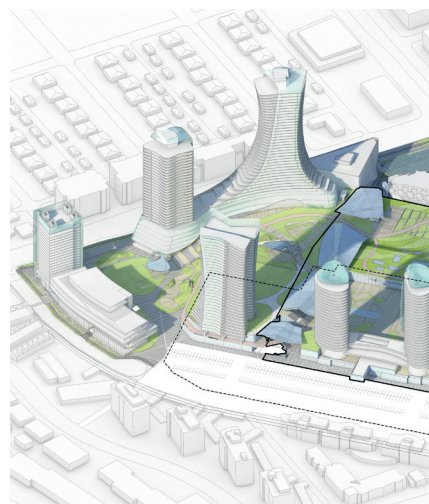

Oakridge Redevelopment

Vancouver, BC

Typology:

High Rise Residential,
Shopping Mall,
Large-scale mixed-
use redevelopment

- Prepared Rezoning and Development Permit drawings and documentation
- Used Rhino for design development and 3D modelling; helped introduce Rhino workflows to the office and developed standards and internal guides for its use
- Developed Grasshopper workflows to rationalize complex façade geometry for design development and buildability
- Supported façade development and consultant coordination, using Dynamo–Grasshopper interoperability to communicate precise geometric and location data
- Prepared design-intent drawings and information for coordination with the Architect of Record

5207 Dundas

Toronto, ON

Typology:

High Rise Residential,
High-density mixed-
use residential
development

- Conducted unit planning and unit-mix studies, preparing area drawings and comparison packages to evaluate efficiency
- Reviewed Toronto Green Standard v4 requirements and prepared supporting statistics and drawings.
- Developed the precast façade system, establishing 3D modelling standards to improve team coordination
- Initiated zoning compliance studies and diagrams to clearly communicate site constraints to the client, consultants, and project team
- Contributed to SPA documentation, design development drawings and precast/VMU coordination

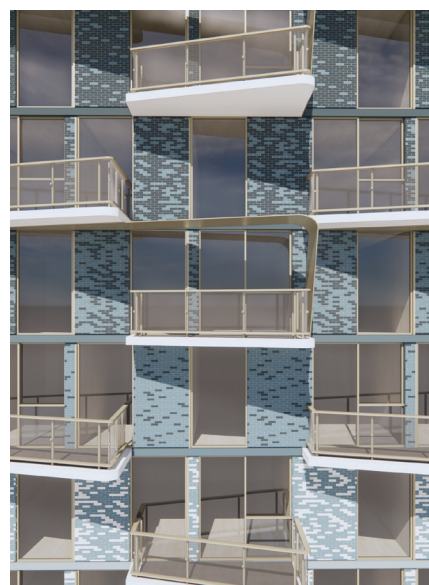

Block 13, West Don Lands

Toronto, ON

Typology:

High-density
residential
development

- Conducted unit planning and unit-mix studies and prepared supporting Toronto Green Standard v4 statistics and drawings
- Developed the 3D precast façade model and design studies, using physical brick samples to inform visualization, brick sizing, shelf schedules, and cost analysis
- Produced zoning compliance diagrams to communicate site constraints, establishing an approach later adopted more broadly by the office
- Contributed to Rezoning Amendment, SPA, and Design Development drawing packages

selected projects list 2 of 2

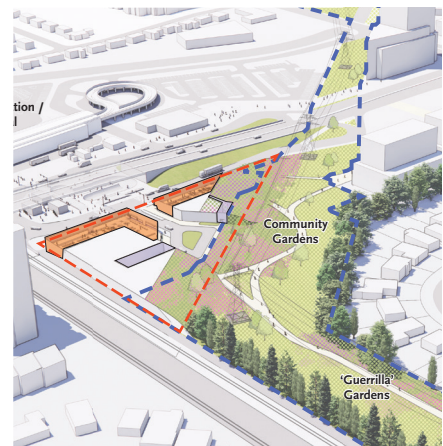

2444 Eglinton

Toronto, ON

Typology:

Co-op & low income housing, high rise residential

- Managed a small team in developing the client presentation package, from storyboarding through final assembly, with regular progress reviews by senior staff.
- Developed the 3D façade geometry and overall building model.
- Managed and contributed to the interior design construction drawing package.
- Supported design development and consultant coordination, using Revit for MEP clash detection and coordination.
- Contributed to the architectural construction drawing package.

Holborn Towers and Abbot Towers

Vancouver, BC

Typology:

Skyscraper, High Rise Residential, Hotel, Low income housing

- Maintained area drawings for Abbott Towers, proactively responding to ongoing design changes to the adjacent Holborn Towers due to their linked CAC requirements.
- Managed the Rezoning and SPA drawing sets for Abbott Towers.
- Developed 3D models for the Holborn hotel tower penthouse viewing dome and sculpted residential tower rooftops.

Listel Hotel / 1300 Robson

Vancouver, BC

- 1:25 architectural sections and corresponding 1:5 details
- Slab-edge and envelope coordination

Mirvish Village

Toronto, ON

Typology:

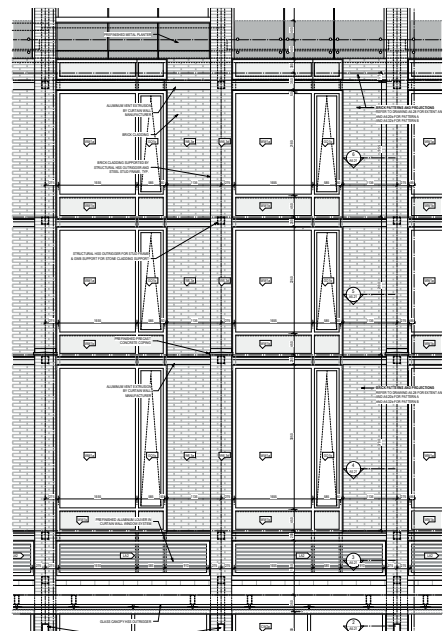

High Rise Residential, Market, Large-scale mixed-use redevelopment

- Prepared site deficiency reports, with particular focus on architectural precast concrete panels.
- Followed established office templates, reporting standards, and contractual language to ensure consistency in deficiency documentation.
- Conducted site visits and documented deficiencies using cloud-based field reporting tools, maintaining organized and reliable site records.

Henriquez Partners Toronto Office

Toronto, ON

- Prepared as-built and lease negotiation drawings for the Toronto office.
- Conducted site visits and field measurements, translating existing conditions into drawings used to support lease negotiations.

Other project listing:

Blood Alley
Vancouver, BC

BC Hosuing RFPQ
Vancouver, BC

East 6th Ave
Vancouver, BC
