

UK DEGREE APPLICATIONS MADE EASY

MABECS QuickGuides

ALL YOU NEED TO KNOW ABOUT Economics

SPECIALLY CURATED FOR YOU BY

BEFORE WE GO FURTHER...

Who is MABECS

MABECS is Malaysia's most experienced advisory service on UK degrees.
Our service is free of charge.

To find out more about MABECS' history and services, turn to the inside back cover. To reach a MABECS Education Advisor, call or WhatsApp us at 603-7956 7655 or email enquiries@mabecs.com

From enquiry to successful student placement, **we take care of it all.**

1 Advice & guidance

Find guidance on the right course and university including rankings, research ratings, entry requirements, and more.

2

Application

Our experienced UK education advisors will advise you on the required documents and relevant procedures. Note that the application method is different from the postgraduate level.

3

Test Preparation & Mock Interviews

We provide assistance for LNAT, BMAT, UCAT and others tests that might be required by UK universities. We also provide mock interviews for Medicine, Dentistry, Veterinary Science and Oxford & Cambridge.

4

Air tickets & accommodation

Yes, we also help to provide guidance from flight bookings, visa applications and suitable accommodations to stay in.

Study in the UK!

GET TO KNOW ECONOMICS

Introduction

Economics is a social science that studies the production, distribution and consumption of goods and services in human society. It studies how human beings use resources at a local individual level, at national levels and in international interactions.

There are many specialised areas of economic activity, and subsequently many specialised areas of economic studies.

Course Organisation

Typically, an Economics degree lasts 3 years. Students can opt for an additional year of placement or study abroad, which takes place in the third year of study.

Modules are taught through lectures, small group tutorials and seminars.

Assessments will depend on the modules, with compulsory subjects typically being assessed in examinations, supplemented by written essays and elective modules by a combination of these and other exercises.

Course Content

The degree will be mathematically rigorous, and students should have an aptitude for and enjoyment of mathematics, along with strong analytical ability.

First Year

Students will study for the essential foundation in Economics and the necessary mathematical skills. Subjects will normally include Introductory Economics, Mathematics, Statistics and a wider Social Sciences elective.

Second Year

Students will build their theoretical foundation in Economics to a higher level and study the empirical research methods in Economics. They will also learn to apply theories to analyse economic problems. Subjects will normally include Intermediate Microeconomics, Intermediate Macroeconomics, Introductory Econometrics, and Advanced Mathematical Methods.

Third Year

Students will study advanced level subjects in all the main fields of economics. Students can select subjects according to their interests. These include Financial Economics, International Economics, Public Economics, Industrial Economics, and more.

02

APPLYING FOR ECONOMICS

How it works

Applications for undergraduate degrees for most of the UK universities go via UCAS. You will need to register and complete the UCAS form, with payment, by the set deadline. Schools and colleges will usually set internal deadlines for their students. With the exception of Oxford and Cambridge, the UCAS deadline for competitive universities is January 13, 2027.

The final deadline to submit a UCAS application is June 30.

Course Codes & Fees

Name of University	Course Title & UCAS Code	Course Duration	Tuition fees (£) per academic year 2026	Entry Requirements
Aberdeen	Economics (L100)	4 years, full-time	20,800	Year 1: AL: BBC IB: 32 points including 555 at HL SL in English and Maths required GCSE English and Maths at C / 4 Year 2: AL: AABBB – ABBB (A in Economics) IB: 36 points (666 at selected HL subjects) English and Maths at minimum SL required
Aberystwyth	Economics (L100)	3 years, full-time	19,190	AL: 96 – 120 or BBB – CCC IB: 26 – 30 points GCSE English and Maths at C / 4

Westminster	Economics (L115)	3 years or 4 years with placement, full-time	19,000	AL: BBC or 112 IB: 25 – 32 (HL English Language and Maths at 4) GCSE English Language and Maths at Grade C / 4
Winchester	Economics and Finance (L1N3)	3 years or 4 years with placement, full-time	16,700	AL: BBB – BBC or 104 – 120 IB: 28 – 31 (2 HL subjects at 4) GCSE English Language and Maths at C / 4 is required

Entry Requirements

Universities are happy to accept 3 A-Level subjects or a combination of 3 HL and 3 SL IB subjects from Arts, Humanities, Maths and Sciences. Many competitive universities will require Maths as one of the A Levels or IB subjects. General Studies and Critical Thinking are not accepted.

Selectors' Attitude

Your UCAS application is always considered as a whole; taking into account your qualifications, personal statement and reference.

Some universities will look for clear mathematical aptitude and capability in your application.

Personal Statement

Students are expected to demonstrate interest in analysing real and diverse economic issues with social science approaches. Aptitude for mathematics is essential, particularly to some competitive universities. The ability to construct and defend arguments, as well as communicating them effectively is very crucial.

UCAS has implemented a system called the UCAS Similarity Detection Service to verify the authenticity of Personal Statements. If significant amounts of similarities are detected and the Verification staff decides to flag a personal statement, the university and the applicant will be notified via email by **UCAS**

LOOKING AHEAD

A day in the life of an Economics student

Student will study the economic theories via the lectures. Further reading is to follow before preparing for the discussion on hypothetical economic problems in the tutorials. The quantitative subjects are mainly for learning mathematical skills to construct mathematical modelling. The mode of learning is quite similar in every subject. Students will also spend time writing essays and dissertation to be submitted by the end of the semester in addition to preparing for exams.

Career Path

Graduates of an Economics degree enjoy a wide variety of career opportunities. They can go on to become analysts in finance, investment, risk, or start a career in business, management, or research. To be an economist, graduates usually will have to further their studies to Master's or Doctorate level so that their theoretical foundation and quantitative capabilities are trained to a level that enables them to handle more complex economic problems.

Examples of graduates' job roles include: Economist Trainee, Market Analyst, Business Reporter, HR Coordinator, Management Trainee, Policy Researcher, and more.

NOTES

NOTES

“How can MABECS help me?”

If all that information is making you feel overwhelmed, don't worry. You're not alone. Countless students have felt the same way and they've found it helpful to consult MABECS for their UK degree applications. For an overview of our services, check out the Inside Front Cover page.

Here is how your MABECS Education Advisor can help you in detail:

1

BEFORE APPLYING

MABECS provides detailed information on:

- UK universities' environment, fees, and facilities
- course structure, content and specialisation
- entry requirements and university standards
- specific university's research ratings and teaching quality assessments

We can also recommend suitable and relevant universities based on your academic results and preferences.

3

PRE-DEPARTURE HELP

MABECS provides guidance on:

- visa applications
- accommodation arrangements
- flight bookings

2

APPLICATION

MABECS provides detailed information on:

- undergraduate degree application explained from start to end
- personal guidance for your Personal Statement
- mock interviews
- monitoring the progress of your application
- providing advice at stages where important decisions need to be made
- being the intermediary (middle person) between you and universities if our assistance is required
- counselling sessions with visiting UK admissions tutors and university representatives
- IELTS registration with the British Council

About Us

MABECS was set up in 1985 to assist students in Malaysia to find suitable places at universities in the United Kingdom.

Since 1985, students we have counselled have successfully enrolled in top UK universities – both at undergraduate and postgraduate levels.

Whether you're an individual student seeking counselling for your UK degree application, or an education institution hoping to achieve the same for your pre-university students, MABECS is here to help.

Visit our website at www.mabecs.com for a quick overview of how MABECS helps students from start to end of their UK degree application process. You'll also find many helpful articles on studying in the UK, including real student stories!
