

Washing machine care record

Use the instructions for your exact model. This sheet records your plan.

Brand / model: _____

Manual location: _____

Approved drum programme: _____

Product / dose, or NO PRODUCT if required: _____

Maintenance interval / reminder: _____

Before you start

- ☐ Empty the drum; finish the cycle and let hot parts and water cool.
- ☐ Follow the manual for safe power isolation before manual cleaning.
- ☐ Identify removable parts; do not force drawers, caps or seals.
- ☐ Keep children and pets away; have cloths and water-catching supplies ready.

Record what you did

Date: _____ Completed by: _____

Seal / door: _____

Drawer (model-specific): _____

Drum cycle / product used: _____

Filter (only if user-serviceable): _____

Result / issue to report: _____

Next check due: _____

Stop for leaks, damaged seals, electrical problems or unresolved drain errors.

No mixed chemicals. Never open a filter containing hot water.

Use a technician for repairs. Dry with the door open only where safe for children and pets.
