

Shower cleaning care record

Check the surfaces. Choose a compatible method. Record what works.

Bathroom: _____ Date: _____

1 / Identify before cleaning

Glass / coating brand: _____

Surrounds, grout and tap finishes: _____

Care instructions located at: _____

Approved product: _____

Label dilution / contact time / rinse: _____

2 / Prepare and test

- ☐ Read product label and surface-care instructions; check exclusions.
- ☐ Ventilate; use label-specified protection; keep children and pets away.
- ☐ Use one product only. Never mix cleaning chemicals.
- ☐ Test an inconspicuous area as directed; rinse and inspect when dry.

3 / Finish and record

- ☐ Clean with the approved method; rinse and dry as directed.
- ☐ Compare the dry result; stop if there is damage or no improvement.

Test / final result: _____

Issue to ask supplier / property manager about: _____

Next clean / follow-up date: _____

Cracked or loose glass and failed seals need assessment, not harder scrubbing.

This record does not replace product labels or manufacturer care instructions.
