

A Decision Is More Than an Answer.

ThinkHOA is designed to show the reasoning behind a governance recommendation—not just the output. Every conclusion is built on authority, context, precedent, and transparency.

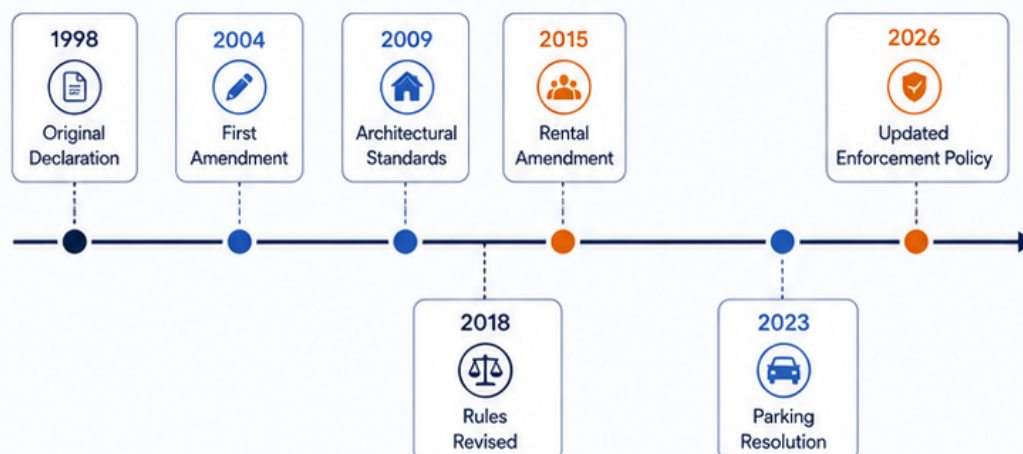

The ThinkHOA Decision View

We surface the full reasoning behind every recommendation—what it's based on, where risk exists, what precedent applies, and why confidence is (or isn't) higher. That's how associations can act with clarity and trust.

The Corporate Document Timeline

ThinkHOA treats governing documents as a changing timeline—not a static folder of PDFs. See how your community's rules have evolved, what's current, and what still matters.

What the timeline reveals

- ✓ Which documents are currently in effect
- ✓ Which documents have been superseded or replaced
- ✓ How policy and rules have evolved over time
- ✓ Where conflicts or gaps may exist
- ✓ A preserved history for transparency and trust

✓ CURRENT

✗ SUPERSEDED

📄 DUPLICATE

⚠️ REQUIRES REVIEW

🏛️ EXTERNAL AUTHORITY

Context first. Then the answer.
