About Us

The Ifakara Innovation Hub (IIH) is a vibrant community that inspires creativity, entrepreneurship, and innovation among youth and women. Established in the heart of Kilombero, in the remote town of Ifakara, the hub is surrounded by a strong ecosystem of research institutions, health organizations, NGOs, and universities. This unique environment makes IIH a strategic place to amplify innovative thinking and collaborative problem-solving.

Our aim is to cultivate a culture of community-building and co-creation that addresses real challenges in the Kilombero Valley and across Tanzania. IIH's physical space is designed to bring together changemakers and provide them with the resources, atmosphere, and networks to bring their ideas to life.

Welcome to IIH, a serene, fully equipped space designed to nurture entrepreneurship, collaboration, and productivity. Whether you're launching a venture, working remotely, conducting research, or hosting a session, our vibrant work environment and essential amenities are here to help you get things done efficiently and comfortably.

Why Choose Us:

The hub provides a tranquil space for startups / entrepreneurs, researchers, and students. Our space offers the following:

- Fast internet and reliable power backup to keep your work uninterrupted.
- Calm, secure, and professional working environment designed for focus.
- On-site café serving premium Tanzanian coffee, tea, and snacks.
- Access to modern, fully equipped meeting and training rooms with TV, webcam, projector, whiteboard, flip charts, and natural or ceiling lighting.
- Stationery and print services, including photocopying and scanning.
- Relaxing chill-out lounge with beanbags, board games and a mini bookshelf for informal breaks or creative discussions.
- Flexible packages for students, startups, organizations and day visitors.
- Guaranteed security with controlled access and on-site staff support.
