

Your donor data, in one place.

Most nonprofits already have the data they need — it just lives in ten systems that disagree. We build the single source of truth, and we stay on the road with you until your team is running it themselves.

THE ROUTE WE TRAVEL WITH YOU

01

Discovery

Stakeholder workshops, current state assessment, roadmap

02

Data audit

Governance, accuracy, completeness, duplication

03

Recommendations

A plain-language plan, in the order to run it

04

Architecture

Hierarchy and taxonomy designed, configured, validated

05

Migration

Clean data, moved once, through our API-connected merge tool

06

Enablement

Reports, written procedures, training team by team

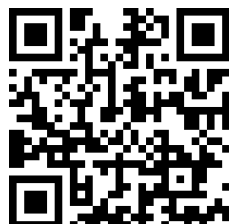

WHAT YOU END UP WITH

Complete profiles, accurate history

Segments, donor journeys, and AI in reach

On-time monthly financial close

Every system integrated, syncing automatically
