

# WHEN THE POOL NEEDS A GLOW-UP.

Modern LED lighting for new pools, renovations and retrofit replacements.

## **NICHELESS POOL LIGHT**

Best for new builds & remodels.

## **RETROFIT POOL LIGHT**

Fits multiple existing pool niches.

## **RETROFIT SPA LIGHT**

Purpose-built for spa niches.

# BUILT AROUND THE WAY POOL PROFESSIONALS WORK

## NICHELESS POOL LIGHT

A compact light that threads into a compatible standard 1.5-inch pool wall fitting without a traditional recessed housing niche.

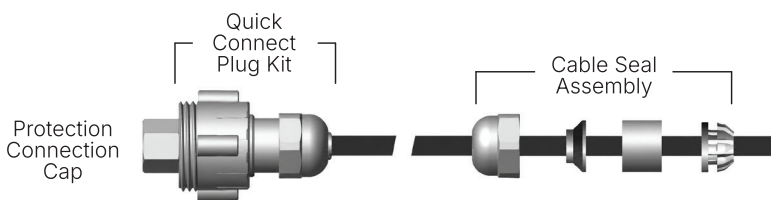

-  Cleaner, more modern pool finish
-  Fewer potential leak points
-  Flexible new-build and remodel installation
-  Patented plug-kit for easier servicing
-  Low-voltage (12V–15V AC)

## RETROFIT POOL + SPA

Upgrade selected existing niches to modern LED lighting. In most retrofit applications, the installer can retain the existing cable and connect the new light using the VUME plug kit.

-  Reduced component replacement
-  Multi brand controller compatibility
-  Pool and Spa replacement options
-  Low-voltage (12V–15V AC)

## PATENTED PLUG-KIT SYSTEM

Disconnect and reconnect the light without tools, simplifying replacement and future servicing.

## COMPATIBILITY GUIDE

| VUME MODEL    | INSTALLATION  | COMPATIBILITY                    | CONTROLLER     |
|---------------|---------------|----------------------------------|----------------|
| Nicheless     | New + remodel | Standard 1.5 inch female fitting | Multi-Program* |
| Retrofit pool | Replacement   | Approx. 10-11 inch diameter      | Multi-Program* |
| Retrofit spa  | Replacement   | Standard 6 inch spa light niches | Multi-Program* |
