

Family Activity Log

Unit 1: Structures & Bridges

A simple place for families to capture what they explored, what their child noticed, what was challenging, and what they might try next.

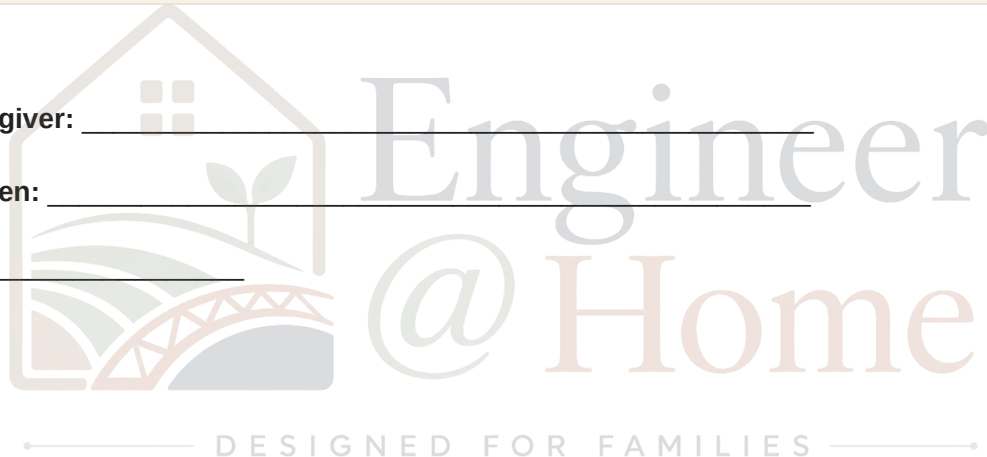

Use this after any activity.

There are no right answers. Write as much or as little as feels useful. You can also draw, add a photo later, or let your child help complete the page.

Family / Caregiver: _____

Child / Children: _____

Date: _____

Our Engineering Activity

Activity name: _____ Date: _____

Who joined today?

☐ Child

☐ Caregiver

☐ Sibling

☐ Friend

☐ Other

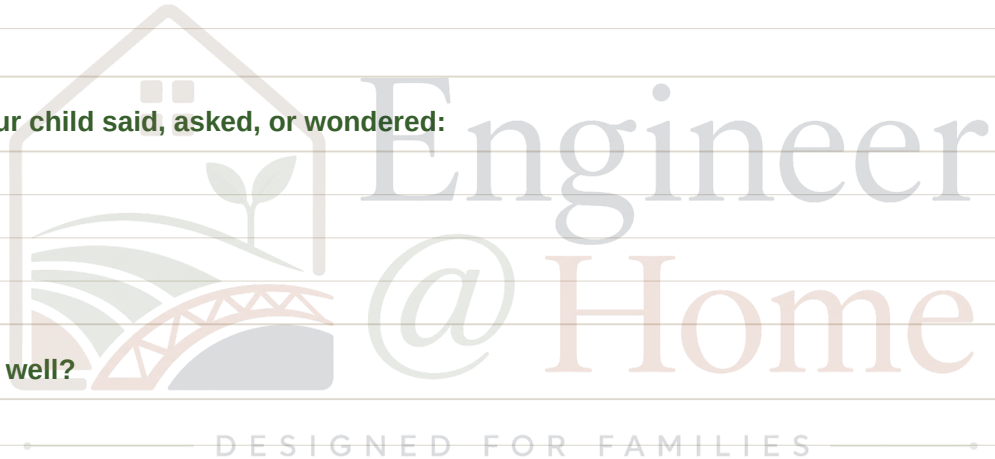

What did we build, test, or explore?

What was our child most interested in?

Something our child said, asked, or wondered:

What worked well?

What was challenging?

What We Learned Together

What did we change or improve?

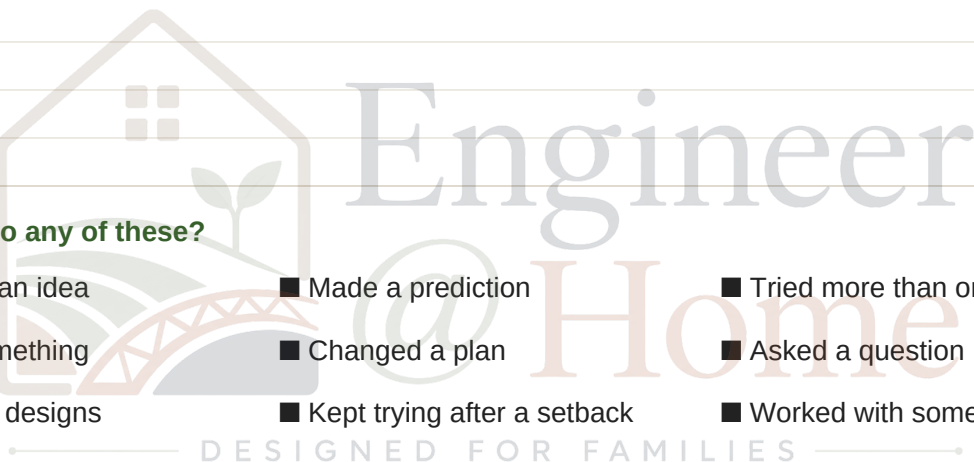

What would we try next time?

Caregiver Reflection

What did I notice about how my child approached the activity?

Did my child do any of these?

- | | | |
|--|--|---|
| ☐ Explained an idea | ☐ Made a prediction | ☐ Tried more than one idea |
| ☐ Tested something | ☐ Changed a plan | ☐ Asked a question |
| ☐ Compared designs | ☐ Kept trying after a setback | ☐ Worked with someone else |

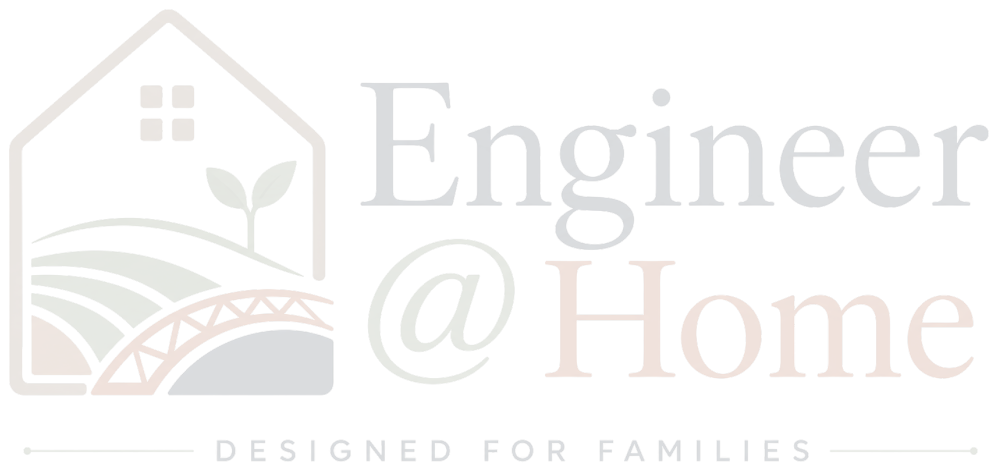

How did the activity feel for our family?

- | | | |
|-------------------------------|--------------------------------------|---|
| ☐ Easy | ☐ Just right | ☐ Challenging |
| ☐ Fun | ☐ Frustrating | ☐ Would do again |

One thing I want to remember:

A Memory From Today

Use this space for a sketch, a photo you print later, measurements, a favorite quote, or anything your family wants to remember from the activity.

Family engineering can be simple.

Noticing, wondering, building, testing, talking, and trying again all count.
