

1. My Engineering Design

Sketch your idea before you build.

What are you trying to build?

What does your design need to do?

Draw your idea below. Use arrows or labels to show important parts.

Materials I Plan to Use

- ---
- ---
- ---
- ---

What do you think will make your design work well?

My Prediction

I think my design will...

After You Build

☐ Yes — it looked like my sketch ☐ A little ☐ No — I changed my idea while building

What changed?
