

Evolve Energy

Cookie Policy

At Evolve Energy Supply Limited, we value your privacy and are committed to being transparent about our use of cookies and other tracking technologies on our website. These technologies play a role in ensuring the smooth operation of our digital platforms, enhancing your experience, and providing insights that help us improve our services.

What are cookies?

Cookies are small data files placed on your device when you visit a website. They allow the site to remember your preferences, recognise your device on return visits, and collect information about how you use the site.

How we use cookies

Essential Cookies

These cookies are necessary for the website to function and cannot be switched off. They're usually only set in response to actions you take, such as logging in, filling in forms, or setting security preferences. They enable core functionality such as security, identity verification, and network management.

Analytics Cookies

These help us understand how visitors interact with our website - for example, which pages are visited most often, how long visitors stay, and whether they encounter errors. This information is used only to improve site performance and content, and is processed in aggregate.

Functional Cookies

These allow the website to remember choices you make (such as language or region) to provide a more personalised experience. If you don't allow these cookies, some or all of these services may not function properly.

Marketing Cookies

These are used to track advertising effectiveness and to deliver content and adverts that are more relevant to you and your interests. They may also be used to limit how often you see an advert and to measure campaign performance. These cookies may be set by us or by our advertising partners.
