

Terms of Use

Website terms for AKUSTA Materials Ltd.

Last updated: August 2026

1. Website Purpose

This website provides general information about AKUSTA Materials, its technologies, materials, applications and business activities. The website is primarily intended for professional and business users seeking information about passive fire-protection materials and related industrial applications.

2. No Binding Technical Specification

Product descriptions, property tables, test summaries, images and application examples published on this website are provided for general information. Unless expressly agreed in writing, they do not constitute a guaranteed product specification, certification, warranty of suitability for a particular application, engineering approval, regulatory approval or binding commercial offer. Customers remain responsible for validating the suitability of a material for their specific product, processing method, regulatory environment and end use.

3. Test Results

Laboratory test information displayed on the website relates to the respective samples, formulations, thicknesses and test conditions stated in the relevant reports. A particular UL 94 classification obtained at a specified specimen thickness should not automatically be applied to other thicknesses, formulations or finished products. References to UL 94 test results do not by themselves imply UL certification, UL Recognition or inclusion in a UL certification programme unless expressly stated. Full independent laboratory reports may be provided during direct customer consultation upon request.

4. Product and Application Development

AKUSTA Materials develops passive fire-protection solutions in cooperation with customers and strategic partners. Application examples shown on this website are illustrative. Final performance depends on factors including material formulation, substrate, coating, thickness, geometry, manufacturing process and operating conditions. Customers should conduct appropriate testing and qualification before commercial use.

5. Intellectual Property

All website content, including trademarks, logos, material names, technical concepts, text, images, graphics, documents and designs, is protected by applicable intellectual-property laws unless otherwise stated. No content may be copied, reproduced, modified, distributed, republished or commercially exploited without prior written permission from AKUSTA Materials Ltd.

6. Downloads

Technical data sheets, brochures and other downloadable documents may be used for legitimate evaluation of AKUSTA Materials products and technologies. Documents must not be altered in a way that changes or misrepresents their technical meaning, origin or stated results.

7. Third-Party and Strategic Partner Information

The website may refer to customers, technology partners, manufacturing partners or strategic application partners. Such references do not imply common ownership, corporate affiliation, agency or authority to legally bind AKUSTA Materials unless expressly stated.

8. External Links

Links to third-party websites are provided for convenience only. AKUSTA Materials does not control and is not responsible for third-party content, products, services, availability or privacy practices.

9. Limitation of Liability

To the maximum extent permitted by applicable law, AKUSTA Materials Ltd. shall not be liable for losses arising solely from reliance on general information published on this website. Nothing in these Terms excludes liability that cannot legally be excluded.

10. Website Availability

We may modify, suspend, remove or update website content at any time without prior notice. We do not guarantee uninterrupted or error-free access to the website.

11. Privacy

Processing of personal information submitted through the website is governed by our Privacy Policy.

12. Governing Law

Unless mandatory law provides otherwise, these Terms of Use are governed by the laws of the Hong Kong Special Administrative Region. Any dispute relating to use of this website shall be subject to the jurisdiction of the competent courts of Hong Kong, subject to any mandatory rights available to users under applicable law.
