PRESENTATION BOOK

2016

Dear Madam/Sir,

Slovenia is a country with a long tradition of skiing and excellent results in all snow sports. I am sure you've all heard for Peter Prevc, Tina Maze, Žan Košir and a lot of others our wintersports heroes. Of course, we are very proud of all our champions and all Slovenian Olympic medals.

Slovenia is a small country with only two million people. We have snowy Alps, beautiful sea and creative people who always look for something new and innovative. Slovenian well known ski brands as Elan, Alpina and others have always been important part of the top level results in skiing history. Let us remind you about Ingemar Stenmark, Bojan Križaj, Mateja Svet and many others that used to ski on Elan skis. Besides, more than half of the best world cup cross country runners are using ski boots by Alpina. And finally we should not forget that Slovenian ski school which have always been among the best in the world.

Ski Instructors/Trainers Association of Slovenia - SIAS is a professional association representing one of the bases of the development of skiing in Slovenia. **Our main goal is to educate a high-quality ski instructors and trainers.** Over its long tradition SIAS has become one of the largest sports associations in Slovenia. It consists of over 3400 active ski instructors and trainers. The development of ski sport resulted in wider activities of SIAS – it now comprises seven commissions (Alpine Skiing Commission, also including Sub-commission of Off-piste Skiing, Snowboarding Commission, Cross-country Skiing Commission and Nordic Walking Commission, Telemark Skiing Commission, Freestyle Skiing, Ski Jumping and Nordic Combined Commission and Biathlon Commission), which are responsible for professional staff (Alpine Ski Instructor of 1st, 2nd and 3rd degree, Trainer and Trainer PRO) in the field of skiing. The accountability of individual commissions to the development of their profession is nowadays, when the public expectation is so great, is high. Therefore our professionally qualified ski instructors are actively involved in the field of recreational skiing as well as world cup skiing.

You can be sure that we have been active in many fields and that the results of our effort are well known in Slovenia and abroad. Our graphics tell more than words and proves that our effort and dilligence laid good foundations to our future work. We can do more and better....which is why the goals we have set are accessible and our future vision is high-quality professional work, the popularisation of skiing and the support of ski instructors' clubs.

Regards,

Blaž Lešnik, Ph. D., SIAS president
