Attendance

Your best ability is your availability

Norms

- We will not discuss individual students
- No shame
- We are here to help
- We all want the students to succeed

Definitions

- Attendance Rate: the percentage of days a child is in school
  - Excused absences do not impact a students attendance rate. For example, if in the first 10 days of school a student is sick and has a doctors note for one absence their attendance rate is 90%.
  - If a student is in school for 1 class period their attendance is counted. For example, if a student comes to school first period and leaves after first for a doctor's appointment they are marked present for the day.
- Chronic Absenteeism: this is a label given to any student who is absent 10% of the time. This equates to one absence every two weeks.
- Severely Chronically Absent: this is a label given to any student who is absent 20% of the time. This equates to one absence a week.
- Chronically Present: this is a label given to any student who has 90+% attendance.

Our Community Attendance Goals

Overall Attendance will increase 89%➳ 91%

Students with disabilities (SWD) being absent more than 80% of days will decrease from 34% of all SWD to 29%

- **Especially Fridays**.

Chronically Present students will increase from 64.92%➳ 69.0%

Edia

Two way secure messaging for daily absence.

AI will automatically log typical absences “Timmy is sick with fever, Jayden is at dentist appointment” and documentation can be sent directly in the chat thread

If there is a concern (My son should be in school right now, I need help getting my daughter in on time), it will be flagged and someone will investigate.

Often, false absences are caused by students being late to school, missing 3rd period attendance.

September Summary

All Student Attendance		
Graduation Year	Last Year's Attendance	Current Attendance
Class of 2030	89%	85%
Class of 2029	87%	88%
Class of 2028	90%	91%
