Lloyd's List Intelligence

Information Classification: General

Solutions powered by SeaTech™

Unrivalled Viewpoints

Investigative journalism and sharp analysis

LLI Human Factor

Expertise, experience, and energy that drive results.

Driving Excellence

Partnerships with regulators, authorities, and technology leaders that deliver trusted insights for safer, smoother operations.

Connections

Flag states, main ports and Lloyds agents

Accuracy at scale

100% live commercial fleet coverage with real-time precision and historical depth.

Exclusive Data + Sources

AIS network, casualty data, trusted matching, and the Lloyd's Agents network.

AI + Machine Learning

Advanced algorithms with human validation.

Driving Decision Making

Actionable risk ratings for clarity and consistency

COACT Framework

Methodology reducing false positives, focusing on real risks.

Lloyd's List Intelligence

Information Classification: General

Our expertise

A maritime ecosystem-wide intelligence partner, supporting customers through critical, decision needs

3000+	100%	200m+	70k+	600k+	60m
data sources	coverage of active commercial fleet	validated daily vessel positions	Ports, terminals & berths	Vessels classes A and B	confirmed port callings /year

The critical decision needs that we support are universal across the maritime industry:

Customer Intelligence
Due diligence & risk assess in an ever more complex universe

Vessel Intelligence
Evaluate vessels, historical behaviors and safety

Trade Intelligence
Understand trade behaviours & risk indicators for AML/TBML

Stronger, safer decision-making

across operational, compliance, financial, environmental and security exposures.

Lloyd's List Intelligence

Information Classification: General

Who We Serve

We strengthen underwriting, claims validation and legal review through verified vessel histories, incident data, and behavioural risk insight.

We support trade and asset finance with KYC, counterparty transparency, asset tracking, sanctions screening, vessel screening and ongoing portfolio risk monitoring.

We enhance government and port oversight with real-time vessel tracking, ownership transparency, and regulatory compliance monitoring.

We enable charterers, owners, operators & bunker holding to optimise opportunity, manage risk, ensure compliance, and improve commercial decision-making.

We power platforms with high-integrity maritime data to enrich products, improve analytics, and accelerate customer decision-making.

We improve supply-chain visibility and speed up trade with intelligence on cargo movements, counterparties, sanctions exposure, and geopolitical disruption.

What we do

The Lloyd's List Intelligence Ecosystem

The trusted source of data, analytics, insights and intelligence

Data & analytics

Seasearcher

The market-leading platform for vessel tracking, monitoring, and risk assessment.

Data Services

Trusted data, delivered as you need it

- SeaOrbis AIS Data
- Seasearcher APIs
- Snowflakes

News & insights

Lloyd's List

Maritime news and analysis

Insurance Day

Insurance news and analysis

Infospectrum

Due diligence research and counterparty risk appraisal/reporting services

Legal reports & publications

i-law

Maritime & commercial case law

Law reports

News and journals

Lloyd's List Intelligence

Information Classification: General

The **difference** is in the **data**

Proprietary Terrestrial Network

Our AIS terrestrial network provides more than 80% of all our unique AIS positions. Owning our own network allows for continuous data enhancements, fewer false positives, and the development of new data such as AIS spoofing detection

Ask-The-Analyst Expertise

Our unique ATA services provide global support for intricate compliance and data queries by leveraging additional human intelligence from our in-house experts, ensuring validation within 24-48 hours.

Lloyd's List Integration

Our data is integrated into the reporting from Lloyd's List, meaning their journalists and analysists are continuously checking, validating and feeding back on our data to ensure quality and accuracy.

Lloyd's Agency Network

Lloyd's agency network gives us access to over 500 professionals in 170 countries, adding an additional layer of human validation to our ports and positions data

Our 'COACT' methodology ISO 9001 Certification

Our certified data quality framework 'COACT' brings you quality risk data through 'Consistency, Origin, Accuracy, Completeness, and Timeliness', and was highlighted in our ISO 9001:2015 accreditation from the British Standards Institution

The most comprehensive and long-running casualties database

Our casualties reporting service dates to 1920, and we've been providing market-leading casualties data ever since. Data is researched, validated and published within 20 minutes of a received report; clients receive casualty alerts 24 hours a day, seven days a week. This 24/7/365 service is unique to us.

Looking forward with optimism

LLOYD'S
Agency

David Lawrence
Head of Lloyd's Agency Network

Looking forward with optimism

- LLI is 100% marine focussed ☑
- LLI clearly recognises and values the Subject Matter Expertise within the Lloyd's Agency Network ☑
- LLI and the Lloyd's Agency Network have an aligned client base ☑
- LLI is committed to investing in the global promotion of the Lloyd's Agency Network ☑
- LLI is allocating additional resource to help support the day-to-day management of the Lloyd's Agency Network ☑
- LLI is investing in new platforms to support our oversight and promotion of the Lloyd's Agency Network ☑

Lloyd's List Intelligence

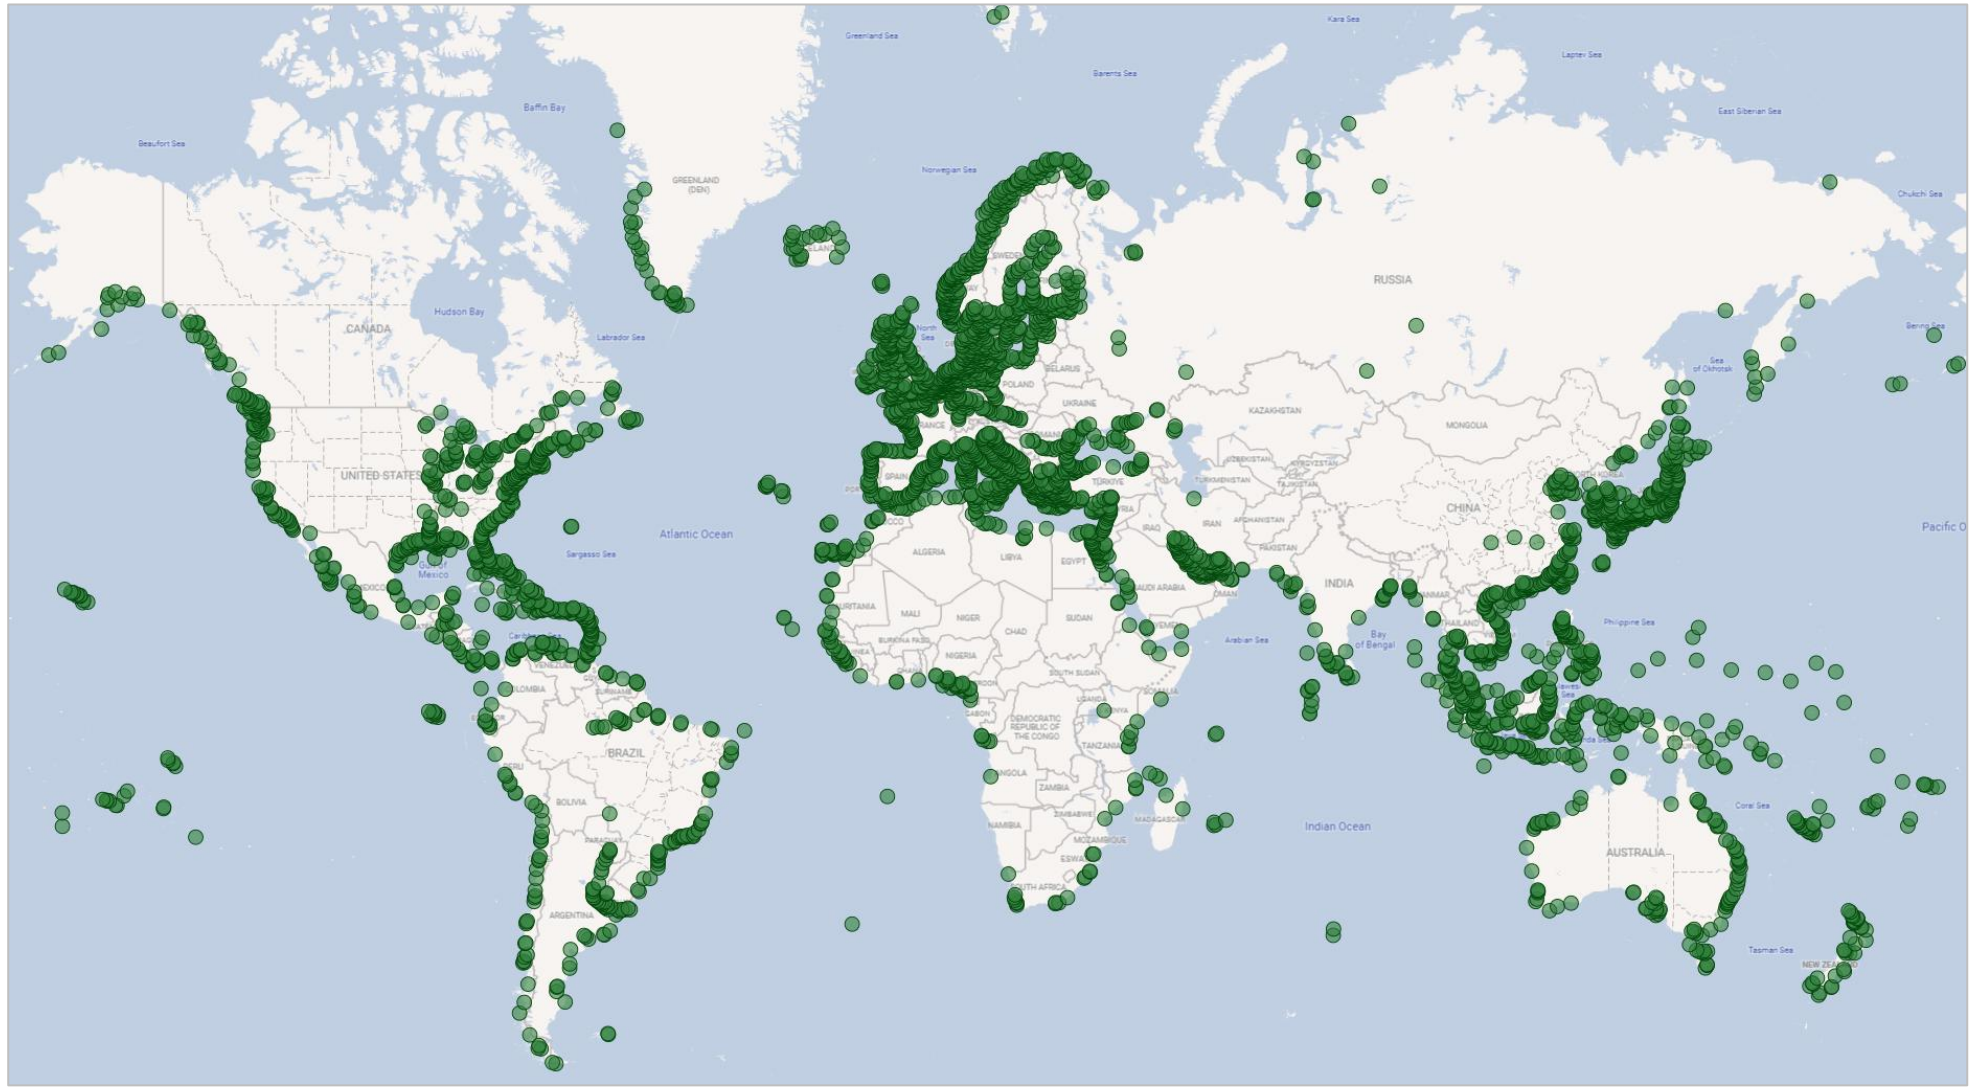

How the network supports Lloyd's List Intelligence

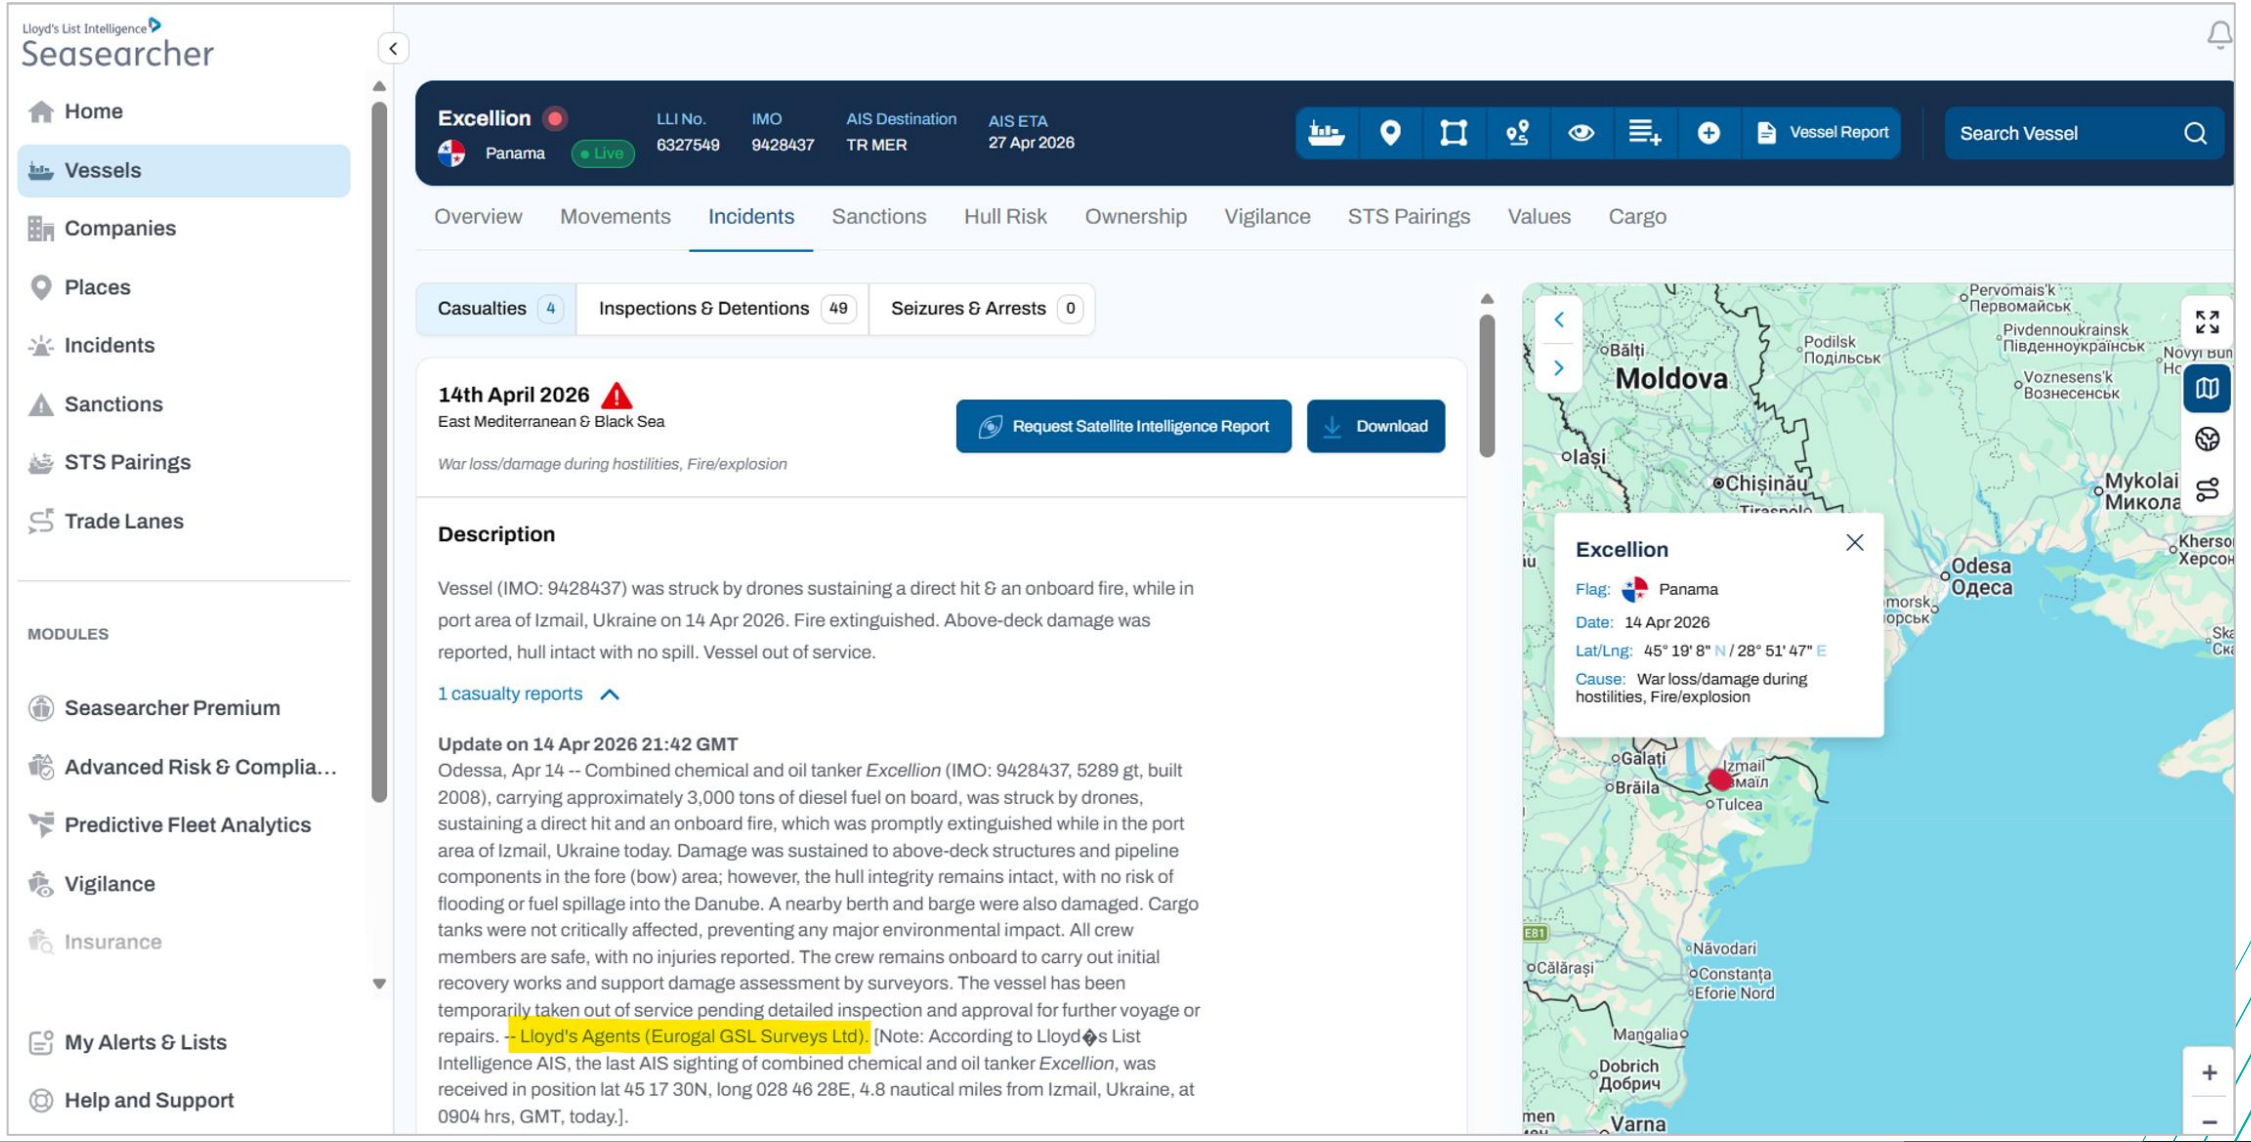

Brendan Martin
Head of Maritime Data

LLI Terrestrial AIS Network - Global Coverage

LLI Casualty Information - Built on Depth, Accuracy, & Trust

Strait of Hormuz coverage

- In the month of March – **1,391 media mentions**
- Tier 1 exposure with Lloyd's List Intelligence personnel repeatedly being interviewed/quoted by a number of major news outlets.
- A weekly webinar being hosted by LLI for the maritime sector. (Please refer to LinkedIn for dates and times)
- Multiple references to the excellent support being provided by **Lloyd's Agency Network.**

Lloyd's List Intelligence

Our focus over the coming months

LLOYD'S
Agency

David Lawrence
Head of Lloyd's Agency Network

Our focus for the network over the coming months

- To develop a new Lloyd's Agency Portal, a new Noticeboard and a new online Lloyd's Agency Directory
- To continue to integrate with our LLI colleagues, with the aim of identifying new (additional) collaboration opportunities, evaluating any additional skills-sets required etc.
- 2026 Calendar of Events – including IUMI, Posidonia, LLI Outlook Forums etc.
- New online training webinars to be launched
- Start planning for 2027…

Lloyd's List Intelligence

Thank you for listening
