Questions Buyers Ask

What is the cheapest published way to meet CMMC Level 2 in this grid? Among the stacks we priced for 25 users, AIC Level 2 at \$19,800 Year 1 is the lowest. For

compliance tracking alone, AIC Level 2 compliance tracking is \$1,428 Year 1 against \$2,196 for FutureFeed Innovator with the Level 2 framework [2].

Why does AIC show Winner instead of stars? Stars on review sites come from user reviews. This scorecard marks the best published price or the included capability on that row.

Do I have to move to GCC High? No product decides that. AIC runs beside Microsoft 365 GCC, GCC High, or a commercial tenant.
