What Each Product Does

FutureFeed helps write the System Security Plan (SSP). AIC CMMC Level 2 runs the controls and builds Assessment Binder sections from live evidence: configuration compliance on connecting machines, privileged access, training attestations, CUI email and files. A docs tool is not the enclave.

How AIC Wins This Deal

Order **AIC CMMC Level 2**. The binder is organized by the 110 Level 2 requirements and fills from the same server that runs email, files, privileged access, connecting-

machine scans, and training. Need a smaller first invoice? Start on Level 2 compliance tracking at \$119 per month, then upgrade in place to the full kit. Records carry over.

Year 1 in 2026: Level 2 tracking \$1,428 against \$2,196 for FutureFeed Innovator with the Level 2 framework [1]. Full Level 2 \$19,800 against \$42,762 for a FutureFeed stack that still adds CUI email and privileged access.

Upgrade path. Tracking to Essentials to full Level 2 to Level 3, on the same AIC Server. Assessor-engagement workflow beyond the living binder is Planned. The kit you run today still gathers the evidence.

Switch credit. If FutureFeed is prepaid and still has unused term, AIC credits that unused prepaid remainder against Year 1 of tracking or Level 2, up to twelve months of the AIC package. See Competitive Switch Credit.

Why Defense Contractors and MSPs Choose AIC

- **Runs the controls, not only tracks them.** AIC includes the systems that produce the evidence: vault, privileged sessions, endpoint elevation, configuration compliance, Controlled Unclassified Information (CUI) email and file sharing, and training.
- **Support from the people who build it.** Unlimited support requests at no charge for customers and partners, with escalation to our engineers.
- **Low-risk, experienced vendor.** Our developers and support engineers have built standard security software for prime contractors, Defense Industrial Base (DIB) suppliers, and the Intelligence Community for more than 30 years. Building cybersecurity software since 1993.
- **You guide the roadmap.** Features we do not have yet are marked Planned and built in the order customers ask for them.
- **Lower price.** AIC Level 2 compliance tracking is \$1,428 for Year 1, against \$2,196 for FutureFeed Innovator with the Level 2 framework. The full AIC Level 2 kit is \$19,800 in 2026, against \$42,762 for a FutureFeed stack with CUI email and privileged access added.
- **Deploy your way.** On your own hardware (on-premises), or in your Microsoft Azure subscription, ready to configure in under 5 minutes.
- **You stay in control.** You own the infrastructure, the encryption keys, and the audit records.
- **Managed Service Provider (MSP) and partner friendly.** Partner discounts on every sale and every renewal, a higher discount on registered deals, and unlimited free support for partners.

Questions Buyers Ask

How much does FutureFeed cost? FutureFeed lists Innovator at \$99 per month and the CMMC Level 2 framework at \$1,008 per year [1].

Is there a lower-cost alternative to FutureFeed? Yes. AIC Level 2 compliance tracking is \$119 per month, \$1,428 for Year 1, and includes the Assessment Binder and Current State Compliance.

Is FutureFeed enough for CMMC Level 2? FutureFeed tracks practices. You still need the tools that run them, such as CUI email, privileged access, and configuration compliance. AIC Level 2 includes those tools.
