At a Glance

Criterion	AIC Level 2	One Identity Safeguard / Identity Manager	Winner
Published CMMC Year 1, 25-user kit	\$19,800	Unpublished [1]	AIC on the published kit price
Vault and privileged access	Included	Yes	Tie on the vault job
Configuration compliance with repair	Included	Not in published CMMC kit plans	AIC
Assessment Binder and training attestation	Included	Not in published CMMC kit plans	AIC
IGA certification campaigns across other applications	Planned	Identity Manager is that job [1]	One Identity on IGA
Customer-owned keys and host	Yes	See vendor	AIC on the published ownership row

What Each Product Does

One Identity sells an enterprise vault and, with Identity Manager, identity governance. AIC CMMC Level 2 is one CMMC kit: privileged identity, access, and elevation plus CUI email and files, configuration compliance on connecting machines, training, and the Assessment Binder. Identity Governance and Administration (IGA) for kit accounts ships today. Governance across other applications is Planned and lands on the same server when it ships.

How AIC Wins This Deal

Order **AIC CMMC Level 2** for the CMMC enclave. Start on AIC Privileged Access if you only need privileged access this year, then upgrade in place. Privileged access is a Level 2 fact.

Upgrade path. Level 1 or AIC Privileged Access to Level 2 to Level 3 on the same server. Connecting-machine scans, training, and privileged sessions write into the Assessment Binder. Records carry over. Identity Governance and Administration (IGA) across other applications is Planned on that same server.

Published AIC Prices

Product	Published Price
AIC Privileged Access	\$89 per privileged user per month, 5-user minimum (\$5,340 for 5 users)
AIC CMMC Level 2	\$19,800 Year 1 with the 2026 startup waiver

One Identity list prices for a CMMC-comparable card are not published on the pages reviewed [1]. See vendor.

Questions Buyers Ask

How much does One Identity cost for CMMC? One Identity does not publish a CMMC-comparable price list on the pages reviewed [1]. Confirm current terms with One Identity.

Does AIC replace Safeguard for CMMC? Yes. AIC Level 2 is the CMMC kit: privileged access plus CUI email, connecting-machine evidence, training, and the Assessment Binder. IGA across other applications is Planned and upgrades in place.

Does AIC include IGA? Account lifecycle and periodic access review for kit accounts ship today. Governance across other applications is Planned.
