What Each Product Does

Keeper sells a password manager and a PAM add-on. AIC CMMC Level 2 is the CMMC kit: privileged identity, access, and elevation plus CUI email and files, configuration compliance on connecting machines, training, and the Assessment Binder. Everyday personal passwords are not a CMMC control.

How AIC Wins This Deal

Order **AIC CMMC Level 2** for CUI and privileged access. The vault covers privileged and CUI accounts. Connecting-machine scans and training write into the same binder.

Start on AIC Privileged Access if you only need privileged access this year, then upgrade in place. Privileged access is a Level 2 fact.

Upgrade path. Level 1 or AIC Privileged Access to Level 2 to Level 3 on the same server. Records carry over.

Why Defense Contractors and MSPs Choose AIC

- **Lower cost.** AIC Privileged Access is \$89 per privileged user per month, against \$98.50 for Keeper Enterprise plus the government PAM add-on [1].
- **Startup fees waived for 2026.** On every CMMC package ordered on or before December 31, 2026.
- **Deploy your way.** On your own hardware (on-premises), or in your Microsoft Azure subscription, ready to configure in under 5 minutes.
- **You stay in control.** You own the vault, the keys, and the audit records.
- **One integrated kit.** AIC Level 2 adds Controlled Unclassified Information (CUI) email and file sharing, configuration compliance, training and attestation, and the Assessment Binder to privileged access.
- **MSP and partner friendly.** Partner discounts on every sale and every renewal, a higher discount on registered deals, and unlimited free support for partners.
- **Low-risk, experienced vendor.** Our developers and support engineers have built standard security software for prime contractors, Defense Industrial Base (DIB) suppliers, and the Intelligence Community for more than 30 years. Building cybersecurity software since 1993.
- **You guide the roadmap.** Features we do not have yet are marked Planned and built in the order customers ask for them.
