Keep the Package Clear

AIC Privileged Access for Microsoft CMMC is a distinct package. Its price and minimum order are on AIC CMMC Complete™ Pricing. The enterprise suite's modules, recording capacity, and other entitlements are scoped through AIC Enterprise Privilege Suite™ Pricing.

Ask both providers to price the same CUI boundary: 25 users, 25 managed systems, the required mailboxes, and the same privileged administrators. Itemize software, hosting, setup, ongoing administration, assessment support, and existing licenses. A different user count or an unpublished price cannot establish which complete solution costs less.
