Enterprise implementation and migration partners can install, configure, and support the **AIC Enterprise Privilege Suite™** from Analog Informatics Corporation (AIC) for customers. We work with the implementation and migration partner the customer already uses.

Service provider and AIC migration help

Accounts and access move from a legacy privileged access system into **AIC Enterprise Privilege Suite™**, with the service provider and AIC working together.

What Service Providers Do

Work	Who does it
Plan the **AIC Enterprise Privilege Suite™** deployment for the customer boundary	Service provider, with AIC guidance
Install and configure AIC Enterprise Privilege Suite™	Service provider or MSP
Connect the SIEM, CMDB, and trouble-ticket system	Service provider
Train operators and the workforce	AIC **free training**, with the service provider
Keep the **Assessment Binder** current	Customer or MSP

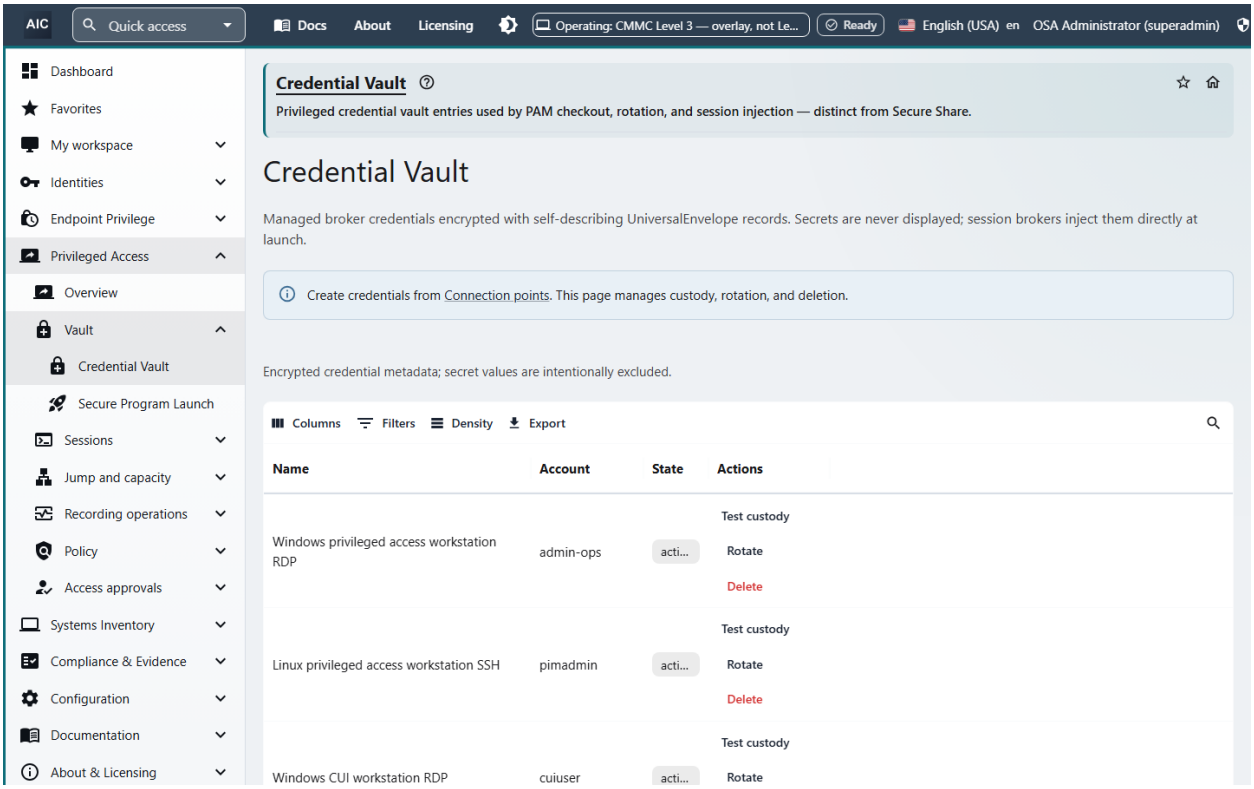

Consultants and Assessors

Consultants help an organization prepare. Assessors read the shared **Assessment Binder**. The assessor decides the outcome. An assessor that assesses a customer keeps its independence from the implementation work for that customer.

Screenshots

Screenshots come from a demonstration system. Host names, account names, and network addresses are replaced with sample values.

Privileged credentials are vaulted and rotated. Operators never see the secret.

Auditor and Readiness Resources

Readiness practitioners help customers improve security, remediate findings, document operations, and prepare evidence. Independent auditors examine that work under separate permissions and the applicable independence rules. Practitioner access does not confer audit sign-off authority.

C3PAO Partners and Auditor Resources

CMMC readiness designations include Registered Practitioner (RP), Registered Practitioner Advanced (RPA), and Registered Practitioner Organization (RPO). CMMC

Certified Assessors (CCA), Lead CMMC Certified Assessors (Lead CCA), and CMMC Third-Party Assessment Organizations (C3PAO) have separate assessment roles. See C3PAO Partners and Auditor Resources for program-specific qualifications and responsibilities.
