Cybersecurity Maturity Model Certification (**CMMC**) Level 1 / 2 / 3 packages from Analog Informatics Corporation (**AIC**). Kitted, pre-integrated small-enclave offers. Each level stands alone.

Level 1 - Federal Contract Information (FCI). Assessment Binder and Current State Compliance (**CSC**) for a small enclave centered on the AIC Server. Document sharing vault (**AIC secure share**) for securely storing and sharing FCI. Secure email server for FCI, with an email account for every named user. Licensing: per named user (document sharing vault and email account) and per workstation security evaluation (direct connection or configuration compliance agent).

Level 2 - Controlled Unclassified Information (CUI). Integrated package: Privileged Identity Management (**PIM**), Privileged Access Management (**PAM**), Privileged User Management (**PUM**), Identity Governance and Administration (**IGA**), Audit, document sharing vault (**AIC secure share**), training and attestation, and Secure Application Launch.

Level 3 - CUI with enhanced requirements. Level 2 plus isolated Jump (session Connect broker / Jump host) with session recording and National Institute of Standards and Technology (**NIST**) Special Publication 800-172 mapping in the Assessment Binder.

Delivery

• **Cloud (Microsoft Azure Commercial Cloud marketplace).** Pre-configured enclave: private isolated network; secure gateway / Jump to the Internet; Identity and Access Management (**IAM**) for the secure network. Fewer customer configuration choices. See the Secure Enclave Price List and the hosted twin card.

• **On-premises (this list).** Same Level packaging. Deploy guidance and IAM guidance; customer environment and choices remain.

The cloud kit reduces configuration choices.

Deployment and customer control

The on-premises packages run as customer-operated software. AIC also supports deployment in a customer-controlled cloud account or a hybrid environment, and air-gapped installations for sensitive missions. The customer chooses where the software runs and who may administer it, use its managed secrets, retrieve them or authorize changes. AIC support has no standing access.

Air-gapped AIC installations can be installed, licensed and updated without a network connection to AIC. Include the local identity, time, audit, backup and recovery services needed by the selected functions. Email delivery, outside feeds and remote access still need approved network or transfer paths where those functions require them.

An organization operating in several EU countries can place and manage separate installations within each country and choose what records it shares with the wider organization. Include logs, recordings, backups and recovery copies when defining the required boundary.

Select the licensed package, included users and systems, additional modules, infrastructure and provider duties together. A deployment choice does not add unlicensed package features or change the price meters below.

1. Meters and commercial terms

Meter	Meaning	SKU
Internal Managed Systems Count	Systems inside the enclave (Security Technical Implementation Guide (**STIG**) image workstations and servers) that AIC manages for credentials, access, and audited actions under Privileged Identity Management (**PIM**), Privileged Access Management (**PAM**), and Privileged User Management (**PUM**)	**AIC-EP-INT**
External Managed Systems / workstation security evaluation	Workstations and other systems evaluated for compliance evidence by direct connection to the AIC Server or via the configuration compliance agent. Capture and log compliance state; optionally block until compliant	**AIC-EP-EXT**
Named user (document sharing vault and email)	Person licensed to store and share files in the document sharing vault (**AIC secure share**), with one email account on the secure email server for FCI or CUI	**AIC-SHARE**
Jump	Session Connect broker / Jump host capacity	Included on Level 2 / 3; extra servers = **AIC-JUMP-EXT** (Level 3)

Commercial terms

• Year 1 = startup + twelve monthly.

• The one-time startup fee is charged on every package that lists one. Startup is not prorated.

• **Support included.** Standard support (AIC-SUP-STD) is included at no charge with every package. Unlimited support requests for customers and partners, with escalation to the engineers who build the product.

• License terms are monthly or yearly at the same monthly list price. List prices may change at each yearly renewal.

• Volume on purchased **AIC-EP-INT** and **AIC-EP-EXT**: list through 249; 10 percent off from 250; 20 percent off from 500. Package prices do not change with volume.

2. CMMC Level 1 - Federal Contract Information (FCI)

AIC-CMMC-L1 - Level 1 enclave package

Startup	$495
Monthly	$149
Year 1	$2,283
Internal Managed Systems	1 (AIC Server)
Named users	5 included (AIC secure share and an FCI email account each). Extra = AIC-SHARE
Workstation security evaluation	None included. Extra = AIC-EP-EXT

Included

• Assessment Binder

• Current State Compliance (**CSC**)

• One Internal Managed System (the AIC Server)

• Document sharing vault (**AIC secure share**); 5 named users

• Secure email server for FCI; one email account per named user

AIC-EP-EXT - Workstation security evaluation

Price	$8 per machine per month
What you get	One workstation (or other system) security evaluation / compliance evidence seat - direct connection to the AIC Server or the configuration compliance agent

AIC-SHARE - Named user

Price	$15 per named user per month
What you get	One named user above the package floor, with the document sharing vault (**AIC secure share**) and one email account on the secure email server

Level 1 package sizes - by workstations

Size = **workstation security evaluation seats** (**AIC-EP-EXT**). The AIC Server internal seat is not in the size number. Named users stay at the package floor of 5 unless AIC-SHARE is added.

Size (workstations)	Estimated Year 1	What's in the number
1	$2,379	Level 1 + 1 AIC-EP-EXT at $8 ($96)
2	$2,475	Level 1 + 2 AIC-EP-EXT at $8 ($192)
10	$3,243	Level 1 + 10 AIC-EP-EXT at $8 ($960)
25	$4,683	Level 1 + 25 AIC-EP-EXT at $8 ($2,400)
50	$7,083	Level 1 + 50 AIC-EP-EXT at $8 ($4,800)
100	$11,883	Level 1 + 100 AIC-EP-EXT at $8 ($9,600)
250	$23,883	Level 1 + 250 AIC-EP-EXT at $7.20 ($21,600)
500	$40,683	Level 1 + 500 AIC-EP-EXT at $6.40 ($38,400)
Custom	Quote	Quote

Level 1 package sizes - by named users

Size = **named users** (document sharing vault and email account each). Workstations are none unless AIC-EP-EXT is added. Formula: package Year 1 (**$2,283**, includes 5) + max(0, n - 5) x $15 x 12.

Size (named users)	Estimated Year 1	What's in the number
5	$2,283	Package includes 5 named users
10	$3,183	Package + 5 AIC-SHARE at $15 ($900)
25	$5,883	Package + 20 AIC-SHARE at $15 ($3,600)
50	$10,383	Package + 45 AIC-SHARE at $15 ($8,100)
100	$19,383	Package + 95 AIC-SHARE at $15 ($17,100)
Custom	Quote	Quote

3. CMMC Level 2 - Controlled Unclassified Information (CUI)

AIC-CMMC-L2 - Level 2 enclave package

Commercial floor: **25** Internal Managed Systems.

Copyright © 2026 Analog Informatics Corporation. All rights reserved.

Startup	$1,500
Monthly	$1,650
Year 1	$21,300 (includes 25 Internal Managed Systems)
Named users	25 included (AIC secure share and a CUI email account each). Extra = AIC-SHARE
Training and attestation	25 seats (AIC-TRAIN-ATTEST; quote above 25)
External Managed Systems	None included. Buy AIC-EP-EXT when outside systems connect in

Included modules

Module	Notes
Privileged Identity Management (**PIM**)	Vaulted identities
Privileged Access Management (**PAM**)	Session Connect through Jump; command restriction
Privileged User Management (**PUM**)	Privilege Elevation and Delegation Management (**PEDM**): cross-platform endpoint privilege elevation, delegation, least-privilege enforcement, application and command control, just-in-time (**JIT**) elevation, and privileged activity auditing on Windows, Apple Mac, and Unix/Linux
Identity Governance and Administration (**IGA**)	Account lifecycle / access review designation
Audit	Privileged-action records on AIC paths
Secure email server	One CUI email account per named user (25 included). Extra named users = **AIC-SHARE**. Runs in the customer's Azure subscription or on the customer's hardware
Document sharing vault (**AIC secure share**)	Default included; 25 named users
Training and attestation (**AIC-TRAIN-ATTEST**)	25 seats
Configuration compliance on connecting machines	Current State Compliance (**CSC**) on the AIC Server; extra connecting systems = **AIC-EP-EXT**
Secure Application Launch (**AIC-APP-LAUNCH**)	Credentials the user does not see

Copyright © 2026 Analog Informatics Corporation. All rights reserved.

Module	Notes
Assessment Binder	Auditor package surface
Current State Compliance (**CSC**)	Findings ledger and rescan
Incident Response (**IR**)	IR module on the package
Federal Information Processing Standards (**FIPS**) cryptography	On AIC crypto paths

Level 2 add-ons

SKU	Price	What you get
AIC-EP-INT	$110 / machine / month (list through 249 purchased extras)	One Internal Managed System above the 25 included
AIC-EP-INT-ADD-10	$1,100 / month	Ten AIC-EP-INT seats
AIC-EP-EXT	$8 / machine / month	One workstation security evaluation / compliance evidence seat
AIC-SHARE	$15 / named user / month	One named user above the 25 included, with the document sharing vault and one CUI email account

Level 2 package sizes

Size = **Internal Managed Systems Count**. Formula: package Year 1 (**$21,300**, includes 25) + max(0, n - 25) x AIC-EP-INT unit rate x 12. Unit rate: $110 list through 249 purchased extras; $99 from 250; $88 from 500.

Size (Internal Managed Systems)	Estimated Year 1	What's in the number
25	$21,300	Package includes 25 Internal Managed Systems
50	$54,300	Package + 25 AIC-EP-INT at $110 ($33,000)
100	$120,300	Package + 75 AIC-EP-INT at $110 ($99,000)
250	$318,300	Package + 225 AIC-EP-INT at $110 ($297,000)
500	$585,600	Package + 475 AIC-EP-INT at $99 ($564,300)
Custom	Quote	Quote

4. CMMC Level 3 - CUI with enhanced requirements

AIC-CMMC-L3 - Level 3 enclave package

Commercial floor: **25** Internal Managed Systems.

Startup	$7,900
Monthly	$5,250
Year 1	$70,900 (includes 25 Internal Managed Systems)
Named users	25 included (AIC secure share and a CUI email account each). Extra = AIC-SHARE
Training and attestation	25 seats (AIC-TRAIN-ATTEST; quote above 25)
External Managed Systems	None included. Buy AIC-EP-EXT when outside systems connect in

Included

• Everything in Level 2 (including document sharing vault (**AIC secure share**), training and attestation, and Secure Application Launch)

• Isolated Jump with session recording

• Command restriction

• National Institute of Standards and Technology (**NIST**) Special Publication 800-172 mapping in the Assessment Binder

Level 3 add-ons

Every Level 2 add-on in Section 3 is available on Level 3 at the same price. Jump on Level 3 is recorded.

SKU	Price	What you get
AIC-JUMP-EXT	$495 / server / month ($5,940 / year)	One more Jump server (capacity). Level 3 only

Level 3 package sizes

Size = **Internal Managed Systems Count**. Formula: package Year 1 (**$70,900**, includes 25) + max(0, n - 25) x AIC-EP-INT unit rate x 12 (same volume rules as Level 2).

Size (Internal Managed Systems)	Estimated Year 1	What's in the number
25	$70,900	Package includes 25 Internal Managed Systems

Copyright © 2026 Analog Informatics Corporation. All rights reserved.

Size (Internal Managed Systems)	Estimated Year 1	What's in the number
50	$103,900	Package + 25 AIC-EP-INT at $110 ($33,000)
100	$169,900	Package + 75 AIC-EP-INT at $110 ($99,000)
250	$367,900	Package + 225 AIC-EP-INT at $110 ($297,000)
500	$635,200	Package + 475 AIC-EP-INT at $99 ($564,300)
Custom	Quote	Quote

5. Deploy flags and quote SKUs

Sold packages are Level 1, Level 2, and Level 3, plus the add-ons in Sections 2, 3, and 4. There is no separate tracking package, Essentials package, privileged-access package, or trial SKU.

SKU	Price	What you get
AIC-CMMC-NFR	$0 for registered partners	Not-for-resale (NFR) licenses for all products and versions. Internal only. Training and demonstrations only. Not for production use, internally or for a client. Renews each year with active partner status
AIC-CMMC-DEP-CLOUD	$0	Marks a cloud run
AIC-CMMC-DEP-ONPREM	$0	Marks an on-premises run
AIC-MIX	Quote	Additional platform modules
AIC-MASS	Quote	Discovery suite for networks and endpoints
AIC-SESS-CONC	Quote	Additional concurrent session capacity
AIC-SUP-STD	$0, included	Standard support. Unlimited requests for customers and partners
AIC-SUP-PREM	Quote	Premium support
AIC-PS-IMPL	Quote	Setup services
AIC-PS-TRAIN	Quote	Operator training services
AIC-AUD-OP	Quote	Auditor Package
