Order Form Health Monitoring

Instruction to complete the order form

Adress field

Please complete the address field incl. different billing address.

Please mark if you want to deliver the animals/probes to us or if we should pick up it. Please let us know the date of delivery so that we can schedule the testing in our testing process.

Choice of requested investigation

Please mark if you want to have your animals/probes tested with the classical methodes ELISA/Culture/Microscopy/ Pathology or with PCR.

Please insert your animal/probe ID and choose the requested testing methods. The different packages, methodes and options are described in the following.

Package FELASA small (Mouse)

Serology (at least 60µl serum required): MHV, MVM, MPV, EDIM, MNV, GDVII;

Microbiology, Parasitology, Pathology

PCR: Helicobacter spp.; H. hepaticus, H. bilis, H. typhlonius

Package FELASA large (Mouse)

Serology (at least 100µl serum required): MHV, MVM, MPV, EDIM, MNV, GDVII, PVM, Sendai, LCMV, MAD type 1FL&2K87, Ectromelia, Reo3, M.pulmonis, C.piliforme, Microbiology, Parasitology, Pathology

PCR: Helicobacter spp., H. hepaticus, H. bilis, H. typhlonius, Streptobacillus moniliformis

Serology Small FELASA-Profile

At least 60µl serum required: MHV, MVM, MPV, EDIM, MNV, GDVII

Serology Large FELASA-Profile

At least 100 µl Serum required: MHV, MVM, MPV, EDIM, MNV, GDVII, PVM, Sendai, LCMV, MAD type 1FL&2K87, Ectromelia, Reo3, M.pulmonis, C.piliforme

Additional agents Serology

MTV, LDHV, K Virus, Polyoma, Hanta Virus, MCMV, CAR-Bacillus, E. cuniculi

Please mark under „Serology“ the column „Additional agents“ and add the requested germ.

Parasitology

We would need faeces, anal-swabs on specimen slide or fur probes on specimen slide. We check for Protozoa, Nematodes, mites, fleas and lice.

Order Form Health Monitoring

Pathology/Necropsy

Macroscopical checking of the organs, sample collection.

Microbiology

We would need organ swabs. For sending of organ swabs please use appropriate swabs incl. transport medium. Also fresh organs on ice or dry-ice can be shipped.

We check for the following germs: Helicobacter spp., H. hepaticus, H. bilis, H. typhlonius, Pasteurella pneumotropica, Streptococci beta-haemolytic (not grp. D), Streptococcus pneumoniae, Citrobacter rodentium, C. piliforme, Corynebact. kutscheri, Myc. pulmonis, Salmonella spp., Streptobacillus moniliformis (large FELASA profile).

We can also check for the following germs: CAR bacillus, Klebsiella oxytoca, Klebsiella pneumoniae, other Pasteurellaceae (P. multocida, Mannheimia haemolytica), Pneumocystis murina, Pseudomonas aeruginosa, Staphylococcus aureus, Helicobacter muridarum, Helicobacter rodentium, Bordetella bronchiseptica, E. cuniculi

PCR

We would need 1-2 faeces pellets per animal to check for all viral agents, Oxyures, Protozos and Bacteria. To check for mites a fur swab or fur probe is sufficient. To check for oral and respiratory bacteria (esp. Streptobacillus) we need a throat swab.

Helicobacter

We need faeces or gut tissue.

Single- or Extra tests

Here you can order special investigations which are not mentioned in the list.

Additional specifications

We are obliged to document all work with genetically altered animals acc. GenTAufzV. Please submit all your GMO-documentation.

Please mark how you want us to send the results to you, digital or via regular mail.
Under ‚additional remarks' you can provide us with further information which might be important for the testings.
Please print the form, sign it and submit it via Fax (06734 – 9999 177) or Email to info@mfd-diagnostics.com.
