

Company Profile

Affordable Quality and Reliable Service

OUR HISTORY

Over 20 Years of Service

In 2002, five engineers with a background in equipment management, marketing, and technical service founded **Globequipt Corporation**, with their mission being to deliver superior, sustainable equipment solutions and services to customers, while promoting affordable healthcare in the Philippines.

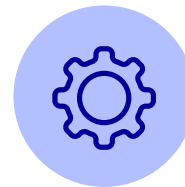

Based in Calamba City, Globequipt has grown to be one of the country's most trustworthy suppliers of biomedical and hospital equipment, offering quality medical devices from Asia, Europe, and the USA, backed up by reliable after-sales service. Today, Globequipt proudly serves hundreds of satisfied customers, from Laoag City in the north to General Santos City in the south.

We are partner-suppliers of **premier hospital groups in the country**

Up to **80% of our sales revenue comes from repeat customers**

Nearly half of the Globequipt Team are **graduate engineers**

SPECIALIZATION AREAS

EQUIPMENT SOLUTIONS

Operating Rooms

OR tables, LED lights, anaesthesia work stations, etc

Intensive Care

Patient monitors, ventilators, defibrillators, etc

Sterilization and Disinfection

Steam sterilizers, plasma sterilizers, washers, etc

Repair, PMS, Calibration and Refurbishment

Globequipt maintains a Service Team of formally trained and experienced engineers and technicians to be able to support every piece of equipment that we supply.

Our Biomedical Service Solutions also include troubleshooting, major repairs, equipment overhauls, calibration, and programmed Preventive Maintenance Service tailored to your needs.

Endoscopy Repair Service

ScopeDoc covers specialized repair and maintenance of endoscopy and laparoscopy towers by overseas-trained engineers and technicians.

We perform minor repair and up-to-complete rebuild of flexible endoscopes, such as Olympus, Fujifilm, Pentax, Sonoscape, and other leading brands.

Free Consultancy

Customers can also take advantage of our free consultation service for design of Operating Rooms, ICUs, and CSSDs. We also provide free advice on biomedical equipment management and maintenance.

TRUSTED GLOBAL PARTNERS

At Globequipt, we strive to match our product solutions to the specific needs and budgets of each customer, be it a large medical center or a small provincial hospital. Our key criteria are affordable quality and low cost of ownership.

We represent only well-established global partners, aiming for long-term relationships to benefit our customers. For instance, we have been the exclusive distributor of SIMEON Medical operating lights for more than 15 years.

Based in Germany, SIMEON Medical GmbH is one of the world's leading manufacturers of LED surgical lighting. Offering illumination intensities ranging from 25,000 lux to 160,000 per light head, Sim.LED lights are an excellent choice for small to large medical facilities.

LED SpA manufactures high-frequency electrosurgical units in Italy, with an output power from 50W to 400W for monopolar and bipolar applications. The Surtron range combines a user-friendly interface with enhanced safety features for dependable surgical performance.

Uzumcu Medical is a leading Turkish manufacturer of medical equipment built to European standards. Known as a reliable and solution-oriented company, we supply Uzumcu OPERA OR tables and surgical suction units to support critical surgical procedures.

PROHS SA is a Portuguese company specializing in Sterilization and Disinfection equipment for hospitals, medical centers, and laboratories, as well as planning and implementation of turnkey RUMED and CSSD projects.

SHINVA is the leading sterilization and infection control equipment manufacturer in China with 50% market share. It has completed more than 5000 CSSD projects domestically and now exports its CSSD solutions and consumables to 110 countries. It is also a major supplier of operating tables, ceiling-supply pendants and medical instruments.

Midmark BSN Series sterilizers are manufactured in Italy by Newmed Srl. Today, more than 40,000 Newmed autoclaves operate around the world. Midmark-Newmark autoclaves are renowned for durability and reliability, with a 3 times longer service life than most competitors.

COMEN

COMEN is one of the top 5 medical device manufacturers in China. In addition to supplying their anaesthesia work stations, we now offer COMEN patient monitors, ventilators, infant incubators, and fetal monitors to smaller and medium-sized hospitals.

Progetti Medical equipment is 100% made in Italy, with both its design and quality embodying the Italian standard. Each Progetti device for ICU and NICU usage is built with care and intuitive navigation, making them ideal for hospital and non-hospital environments.
