Cybersecurity Advisor Mongolia

Incept Data Solutions, Inc. - Dulles International Airport, DC, United States

Are you looking to make a difference in global security cooperation? Are you a dynamic individual with international relations experience? Are you a SME level Cybersecurity professional? Then our Partner Nations need your help to guide them into greater national cybersecurity capacity and a stronger global cybersecurity posture.

We are currently seeking an experienced Cybersecurity professional to provide expert advisory services to the Moldovan Ministry of Defense (MoD) and Joint Staff in support of Global Defense Reform Program (GDRP) initiatives. GDRP is a US State Department-funded program that, in close coordination with US Department of Defense, focuses on assisting Partner Nations with defense reform and civil-military institutional capacity building efforts. The embedded Senior Advisor will work on cyber defense and will coordinate with all necessary partners to improve their cyber security capabilities. The Advisor will serve in a **full time, twelve-month long commitment abroad in-country in Chisinau, Moldova.**

The Senior Advisor will be embedded with the Partner Nation MoD. The Senior Advisor will work with the MoD, Cybersecurity Unit, and other government entities to assist in building the capacity of the Cybersecurity Unit, improve cyber security within the MoD, and develop joint cyber defense coordination within the service branches and interagency. Provide expert guidance and training as well as advice and technical assistance needed to develop and implement cyber reforms and policies at the Joint Staff. Advise the Ministry of Defense and support effective interagency coordination on cybersecurity within the Government of Moldova, as required.

For more information and immediate consideration, please reply to this job announcement, email ebony.jefferson@inceptds.com or call Ebony on 703-559-7734.
