

PPS EQUITY FUND

As of 31 Jul 2026

INVESTMENTS

FUND DESCRIPTION

This fund invests primarily in shares of listed companies. It may, however, also invest in listed and unlisted financial instruments, and it may also hold units in collective investment schemes. Ratios may vary.

The PPS Equity Fund aims to provide investors with investment returns in excess of its benchmark while seeking to provide capital growth over the long-term.

DISCLOSURES

Collective Investment Schemes in Securities (CIS) are generally medium-to long-term investments. The value of participatory interests (units) may go down as well as up, and past performance is not necessarily a guide to future performance. CIS are traded at ruling prices and can engage in borrowing and scrip lending up to 10% of the market value of the portfolio to bridge insufficient liquidity. The manager does not provide any guarantee either in respect of the capital or the return of a portfolio.

Total Expense Ratio (TER) is a measure that can be used by investors and advisers to determine how much of a CIS's underlying assets are relinquished as payment for services rendered in the administration of the CIS. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER may not necessarily be an accurate indication of future TER's.

Transaction Costs (TC) is a measure that can be used by investors and advisers to determine the costs incurred in buying and selling assets underlying the CIS. TC's are a necessary cost in administering the CIS and impact CIS's returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of CIS, the investment decisions of the investment manager and the TER.

Total Investment Charges (TIC) is a measure of total cost relating to the investment. TIC is the sum of the total expense ratio (TER) and the transaction cost (TC).

TER's and TC's are expressed as a percentage of the daily net asset value of the CIS calculated over the past one year and three-year period on an annualised basis. The TER and TC disclosed are estimates based on our best estimate of the underlying costs.

These performance figures are for lump sum investments with income distributions reinvested on the ex-dividend date. All PPS Multi-Managers performance figures and values are quoted after the deduction of costs and applicable taxes incurred within the Fund. Actual investment performance will differ based on the initial fees applicable, the actual investment date and the date of the reinvestment of income and dividend withholding tax. The reinvestment of income is calculated based on actual distributed amount and factors such as payment date and reinvestment date will be considered. Please note that performance over periods greater than one year is annualised. Annualised performance is the average return earned on an investment each year over a given time period. Performance is based on NAV to NAV calculations and calculated on a rolling monthly basis. The past performance is relevant to the investment or the service offered by the manager.

Unit Trust prices are calculated on a Net Asset Value basis, which is the total market value of all assets in the portfolio including any income accruals and less any deductible expenses from the Fund divided by the number of units in issue. Transactions must be received by the Management Company (MANCO) by 2pm to receive the net asset value price for that day. Transaction requests received after this cut off time will only be processed on the next business day, and will receive the price of that day. Linked Investment Service Providers (LISP), specify their own transaction timelines and may take up to five business days to process. Portfolio valuations occur at 3 p.m. on business days, except the last business day of the month, when it will be 5pm. Prices are published daily and are available in the daily newspapers.

The FTSE/JSE has decommissioned the FTSE/JSE Total Return Capped SWIX Index (J433) on the 31st of December 2025 and implemented the Capped All Share Total Return Index (J303T) as its replacement on the 1st of January 2026. The composition of the index and the respective weightings remain unchanged.

A schedule of fees, charges and maximum commissions are available on request. This fund does not charge performance fees.

The manager may close the portfolio to new investors to ensure the portfolio is managed according to its mandate.

Additional information of the proposed investment, including brochures, application forms and annual or quarterly reports, can be obtained from the Manager, free of charge.

PPS Investments (39270), PPS Multi-Managers (28733), PPS Investment Administrators (45924) and PPS Insurance (1044) are licensed Financial Services Providers. PPS Management Company is a licensed collective investment scheme manager. PPS Nominees is an independent nominee company approved by the Financial Sector Conduct Authority (FSCA).
