

Rolf Benz 953

Design
Johannes Steinbauer

**For more
relaxed corners.**

Rooms and their functions have become more flexible. This calls for creative pieces of furniture that are lightweight and therefore mobile. It was on this principle that the Rolf Benz 953 footstool was created, as it can be moved effortlessly: the comfortable footstool with the striking corners is always a delight to get hold of. Made from high-quality

light green, blue-green, dark red or dark grey felt and modelled with buttons and cord, Rolf Benz 953 also makes the perfect gift. It is protectively enveloped for transport and supplied in a stylish box.

Rolf Benz 950

**Versatile – in function
and colour.**

Flexibility is one of the biggest topics of our day. And Rolf Benz 950, with its versatility, rides this trend beautifully. With an edge length of 45 cm, it takes up only a small amount of space, but it offers all the more possibilities for it: whether as

a coffee table, seating cube or visual element, Rolf Benz 950 shows its six best sides wherever it is positioned. In terms of design, the choice is yours from all leathers and fabrics in the Rolf Benz cover collection.
