

cubus and cubus pure living

cubus

Details which are typical for TEAM 7 such as slot-and-pin connections for the frame and base, finger-jointed drawer and solid wood fronts sorted by hand highlight the quality of the craftsmanship of the entire **cubus** range. The 25 mm thick top board emphasises the solid construction of the **cubus** range. A glass table top can also be selected as an option. The modular cabinet system can be individually configured with 13 heights, 5 widths and 4 depths.

cubus pure

The central design feature of the **cubus pure** living range is the delicate coloured glass which surrounds the fronts like a passe-partout frame. The fine glass edges and recessed plinth provide a light, floating visual appearance. The glass sides can be easily exchanged using connection adapters developed and patented by our engineers. The modular **cubus pure** cabinet system with 13 heights, 5 widths and 4 depths can be configured to suit your needs.

design elements

design elements

The design elements are open units made of pure solid wood, which integrate perfectly into the TEAM 7 element system. Whether as a free-standing suspended solo piece, or combined with or flush-mounted in sideboards, dressers, wall units, and kitchens, the design elements offer space to present decorative accessories – similar to a display case.

The display-cabinet character can be accentuated with optional all-glass doors. These hinged doors made of transparent glass available in clear glass, smoked glass, or palladium. The back panel of the design element is available in a choice of coloured glass or wood.

shelf back board: solid wood (grain upright or horizontal), coloured glass

glass colours: see p. 2

handles: flap handle stainless steel or bronze matt, touch fitting

wall mount: recessed plinth, wall mount

partition modules

At the smallest element depth (25.8 cm), partition modules and a divisions rod encased in leather can be manoeuvred freely to provide a simple structure to the interior. These partition modules can be arranged or combined in any way you wish.

lighting

The design elements can be supplemented with dimmable LED lighting upon request. Here you can choose between round, adjustable spotlights and square, flush-fitting lights.
