Flggd

UNITED KINGDOM

FLGGD SAFELINE

Ask before the money moves.

A scam check your members reach by forwarding a text, under your credit union's name. Nothing to install, and no integration with your core systems.

A member forwards a text and gets a verdict. An illustration; the credit union and the message are invented.

THE PROBLEM

UK victims lost £450.7 million to authorised push payment scams in 2024 (UK Finance). Credit unions sit outside the PSR reimbursement rules that cover banks and building societies. Your fraud tools watch the money, not the text that comes first.

Put the check where the scam arrives.

TODAY

- A member gets a convincing text
- They act on it alone

WITH FLGGD SAFELINE

- They forward it to your number
- **A verdict with reasons, in seconds**
- They stop before anything is paid

WHAT IS IN IT, AND FOR WHOM

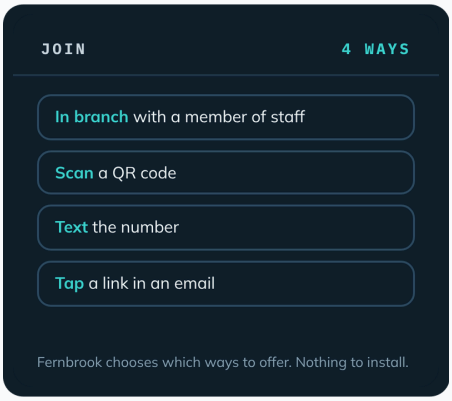

- **For your credit union.** A member service in your name, measured by what never arrives.
- **For your fraud team.** Somewhere to send every member who asks "is this real?"
- **For your members.** A second opinion by text, with nothing to install.
- **For you.** A launch your IT team does not have to build.

FLGGD SAFELINE: HOW IT WORKS

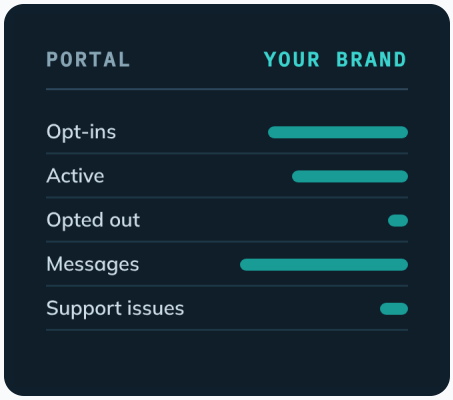

1 Members join

In branch, by QR code, by text or by an email link. You choose which.

2 They forward a text

One of four flags comes back in plain language, with the reasons named.

3 Your team sees it

A portal shows enrolment, messages, verdicts and support issues.

WHAT YOU SUPPLY

Your name, logo, colour and support link, and the places you will tell members about it.

WHAT FLGGD DOES

Runs the number, the verdicts and the portal. You can start on a shared number and move to one of your own as enrolment grows. Members see no change when you do.

YOUR REVIEW WILL ASK

Data. Consent is recorded with its source. STOP, START and HELP work on every number. Data is separated per institution.
Integration. None with the core. Members forward a text to a number, and the portal needs no engineering to run.

Control. Every verdict is a Flggd verdict with its reasons, never a guarantee. SafeLine holds no payments and moves no money.

> **Every verdict is a Flggd verdict with its reasons, never a guarantee.** It learns from the scam, not from your members.
