

BBA July 2025 Highlights

President's Message

Earlier this month, we submitted a detailed, evidence-based response to the FCA's **Stablecoin consultation** [[HERE](#)]. As Secretariat of the All-Party Parliamentary Group on Blockchain, we continue to inform and educate the policymakers and regulators on evidence-based applications of Blockchain and Digital Assets.

As a part of the Blockchain **APPG's field visit** and university engagement programme, BBA facilitated a day visit to Durham University to inform, educate and up skill **UK Parliamentarians** on the cutting-edge research and education initiatives underway at UK universities. More [[HERE](#)].

Earlier this week, I was invited to deliver a [Masterclass](#) on "**How to devise a National Blockchain Roadmap**", by

policymakers and regulators in Africa and MENA. As more countries prepare to put forward their NBR, it is essential that national strategies are evidence-based and pragmatic. More [\[HERE\]](#)

There are some striking similarities between **US National Blockchain Act 2025** and **UK's National Blockchain Roadmap 2021** - More [\[HERE\]](#).

Abstract submissions are now officially OPEN for the BBA's **8th Annual Blockchain International Scientific Conference** ([ISC2026](#)) which will take place in **London** on 27 March 2026. Submit your work [\[HERE\]](#).

On the global front, the BBA's **Blockchain Associations Forum** ([BAF](#)) will host its **5th Annual Member Summit** on 15 October. The Chair of the Blockchain APPG, Matt Vickers MP, will deliver a [keynote](#) address at the Summit, alongside [leaders](#) of several national blockchain associations from around the world. More [\[HERE\]](#).

Full text PDF of the latest **15th issue** of the Journal of the British Blockchain Association (**JBBA**) is now available open access [\[HERE\]](#).

As always, we remain committed to advancing blockchain and cryptoasset adoption through evidence, outcomes, and trust. Thank you for being part of this journey.

Until next time,

Professor Dr Naseem Naqvi MBE

Question for Department for Business and Trade

UIN 67505, tabled on 14 July 2025

Answer

Gareth Thomas >

Labour

Harrow West

 Commons

Answered on

17 July 2025

As the Chancellor set out her Mansion House Speech on Tuesday, we recognise the transformative potential for digital assets and blockchain technologies to drive economic growth in the UK and increase efficiencies across financial markets. We are proceeding with proposals to create a new financial services regulatory regime for fiat-backed stablecoins.

Question

Matt Vickers >

Conservative

Stockton West

 Commons

To ask the Secretary of State for Business and Trade, whether he has had discussions with the British Blockchain Association on the potential of blockchain technology to (a) reduce fraud, (b) enhance transparency, (c) improve costs and (d) provide efficiency in cross-border trade and commerce.

Gareth Thomas MP, Parliamentary Under Secretary of State at the Department for Business and Trade has responded to the question raised by the APPG Chair on 14 July regarding the role of blockchain technologies in enhancing efficiency and driving economic growth.

The Minister affirmed that the government recognises the transformative potential of digital assets and blockchain to support UK economic growth and improve efficiencies across financial markets.

To ask His Majesty's Government what assessment they have made of the case for issuing a central bank digital currency.

Answer

Lord Livermore

Labour

Life peer

 Lords

Answered on

24 July 2025

No decision has been taken on whether to introduce the digital pound. The work currently being undertaken as part of the ongoing design phase will provide a rigorous view of the costs and benefits of the digital pound and take account of international developments and wider trends in money and payments, providing the evidence base for a decision on whether to proceed to a build phase. Any decision to proceed with the digital pound would be accompanied by the introduction of primary legislation, ensuring full Parliamentary scrutiny by both Houses of Parliament.

Answered by

Treasury

No Decision Made Yet on UK CBDC (Digital Pound).

The British Blockchain Association's Response to FCA Consultation Paper CP25/14: Stablecoin Issuance and Cryptoasset Custody

I am pleased to submit our response to the FCA's Consultation Paper CP25/14 on Stablecoin Issuance and Cryptoasset Custody. The BBA, as the leading industry body advocating evidence-based blockchain and digital asset adoption in the UK, welcomes the opportunity to contribute to this important consultation. Our response reflects the BBA's commitment to fostering a regulatory environment that promotes consumer protection, market integrity, and financial stability while enabling innovation in the cryptoasset sector. I would like to thank our members, editors, advisors and partners for helping us draft this response.

The BBA supports the FCA's proposals as a vital step toward a balanced regime for stablecoins and cryptoasset custody, aligning with our vision for responsible blockchain adoption. We endorse requirements like statutory trusts and disclosure standards to enhance trust and stability but emphasize the need for flexibility to avoid stifling innovation. Key concerns include disproportionate burdens on smaller issuers/custodians, potential barriers to market entry, and insufficient guidance on dynamic risks like forex volatility or blockchain latency.

Highlights of Our Response:

- Endorses statutory trusts and segregation rules to ring-fence consumer funds.
- Recommends allowance for operational exemptions (e.g. de minimis issuer-held coins).
- Urges clearer definitions (e.g. "unconnected custodians", "material discrepancy").
- Supports use of omnibus wallets and DLT-based reconciliations, with appropriate guidance.
- Recommends FCA-approved training for auditors reviewing tokenomics disclosures.

Key Recommendations:

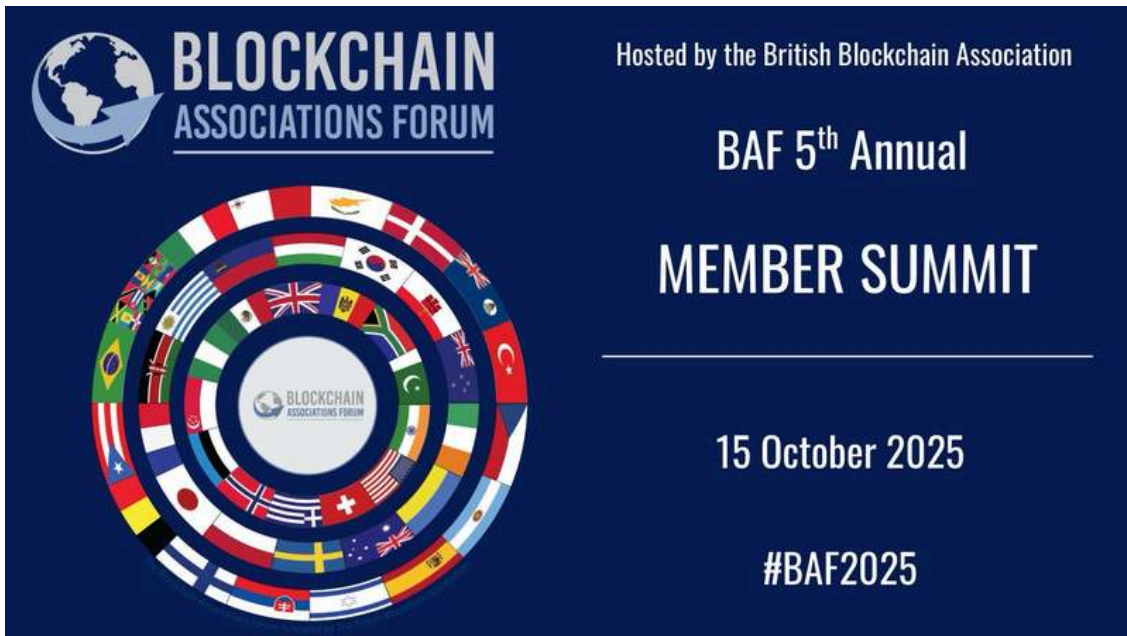

1. Proportional Regulation: Introduce tiered requirements for small and low-risk issuers/custodians to avoid market concentration and support innovation.

Earlier this month, we submitted our comprehensive response to the Financial Conduct Authority's Consultation Paper 'CP25/14: STABLECOIN Issuance and Cryptoasset Custody'.

BBA to Host "United Nations of Blockchain": BAF Summit 2025

A promotional poster for the Blockchain Associations Forum (BAF) 5th Annual Member Summit. The poster has a dark blue background. On the left, there is a circular logo composed of many national flags arranged in concentric rings, with the BAF logo in the center. Above this logo, the text 'BLOCKCHAIN ASSOCIATIONS FORUM' is written in white, with a small globe icon to the left. To the right of the logo, the text 'Hosted by the British Blockchain Association' is written in white. Below this, 'BAF 5th Annual' is written in a large, white, sans-serif font, followed by 'MEMBER SUMMIT' in a slightly smaller, white, sans-serif font. A horizontal white line separates this text from the date '15 October 2025' and the hashtag '#BAF2025' at the bottom right.

BBA July Forum Highlights: Healthcare on the Blockchain

On July 9, the BBA hosted a successful Forum focused on decentralised healthcare and the transformative potential of blockchain in the medical sector.

Dr. Burhan Ahmed introduced BlockMed Pro's MVP platform, showcasing how tokenised research and patient-owned data can reshape healthcare delivery.

Prof. Marc Pilkington shared insights from his work on blockchain networks and medical tourism, exploring cross-border care powered by digital infrastructure.

Chrissa McFarlane discussed the role of blockchain in empowering patients through health data ownership and decentralised identity systems.

Dr. Sean Manion highlighted the impact of decentralised science (DeSci) in building transparent, community-driven research ecosystems.

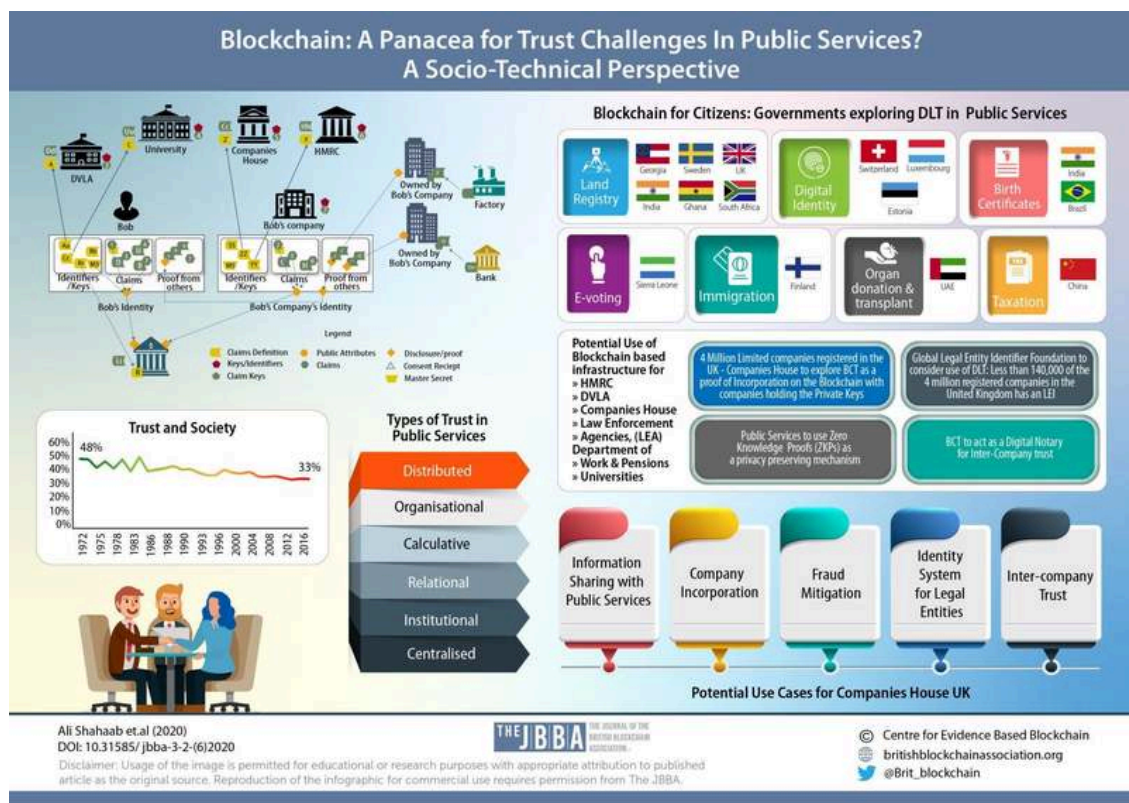

Prof. Dr. Naseem Naqvi MBE presented the latest BBA ecosystem updates and outlined the regulatory and strategic opportunities in blockchain-powered healthcare.

A recording of the session is now available on BBA's YouTube channel.
