Perspective from Quantifind's CEO

Quantifind is committed to responsible business practices that contribute to a more sustainable and equitable world. Our Environmental, Social, and Governance (ESG) initiatives reflect our dedication to environmental stewardship, social responsibility, and strong governance structures.

Our ESG strategy centers on reducing the carbon footprint of Artificial Intelligence, ensuring fair labor practices as part of our commitment to our people, and implementing ethical Artificial Intelligence governance. We also support our customers and the global community by reducing the impacts of major converging crimes such as drug, weapons, human, and wildlife trafficking. Additionally, we collaborate with NGOs like the Polaris Project and United for Wildlife. This report provides an overview of our achievements, challenges, and goals in the areas of environmental sustainability, social well-being, and responsible governance.

About Quantifind

Quantifind is the leader in financial crime intelligence automation, offering purpose-built AI solutions that transform how organizations detect and mitigate risk. The Graphyte™ platform acts as an essential AI co-pilot, delivering real-time, highly accurate risk assessments by integrating internal data with complex, unstructured public information. This enables organizations to uncover hidden threats, reduce false positives, and enhance decision-making with unprecedented accuracy, speed, and scale. By empowering customers to collaborate with trusted entities, prioritize critical risks, and strengthen compliance, Quantifind provides greater confidence and precision in risk management.

Quantifind's ESG Commitments

Quantifind's Environmental, Social and Governance (ESG) framework is used to guide and assess our business practices and performance on various sustainability and ethical issues. Quantifind's commitment to positively impact ESG is lead by our guiding principles:

- **Ethical AI:** Provide non-biased results based on ethical-use principles.
- **Mission Focused AI:** Targeting key missions with public-private partnerships, ranging from exposing adversarial capital to illegal, unreported, and unregulated fishing.
- **Anti-Corruption:** Committed to conducting business in an ethical and honest manner.
- **Anti-Harassment:** Create a safe work environment in which all individuals are treated with respect and dignity and are free from all forms of harassment and discrimination.
- **Environmental Sustainability:** Minimize our negative impact on the planet, while helping to end wildlife trafficking through our partnership with United for Wildlife.
- **Anti-Modern Slavery:** Deeply committed to a work environment that is free from human trafficking and modern slavery, while also partnering with Polaris to combat human trafficking.
- **Human Rights:** Support the right for all people to be treated fairly, with dignity and respect.

Quantifind’s Carbon Footprint

	Total Tonnes of CO2-e, FY 2024/2025
Scope 1	7 t CO2-e
Scope 2	53 t CO2-e
Total tonnes of CO2-e	60 t CO2-e

Our commitment to responsible operations adheres to the highest standards. At Quantifind we use data centers that leverage renewable energy and receive carbon neutral electricity at our office headquarters based in Palo Alto, California. We have been intentionally designed from day one to maintain low greenhouse gas emissions.

Recognizing the urgency of climate change, we are committed to supporting the transition to a low-to-zero carbon economy. We are proud of the progress we have made toward carbon neutrality, achieved through collaboration with key partners and will continue to maintain our current minimal carbon footprint at our headquarters.

Quantifind Social Initiatives

We are a global team who use our unique perspective to shape our success. We believe that a positive work environment happens when people can bring their whole authentic selves to work. That is why we have created a culture based on values and fairness, and we will never stop building on that model. Our mission is to create an environment, where all our colleagues feel that they belong and can achieve their full potential.

We developed our Women in Risk Empowered (WIRE) initiative to strengthen Quantifind and the larger industry. It has been created by our people, for our people and cements our commitment to creating a positive place to work. WIRE is further enhanced by our partnership with PayTech Women, expanding our ability to access mentors, educate women in our industry, and create other career expanding opportunities for women to thrive in STEM.

According to the Global Gender Gap Report 2023 published by the World Economic Forum, women accounted for 28.2% of STEM roles globally. As we grow, our goal is to exceed this percentage of women at Quantifind.

According to the latest report from Pew Research Center regarding the composition of the STEM workforce in the United States, 33% of those employed in STEM occupations are defined as multicultural. Quantifind currently exceeds this metric, employing 40% of people who self-identify as multicultural. As we continue to grow we want to maintain our multicultural workforce.

2026 Employees

49% Multicultural

28% Women

2026 Board of Directors

37.5% Multicultural

25% Women

Governance Process for Cybersecurity

At Quantifind, protecting the confidentiality, integrity, and availability of our systems and sensitive data is paramount. By prioritizing a proactive stance on cybersecurity through a comprehensive suite of programs, policies, and procedures, we protect our organization from potential threats. We are externally recognized as SOC 2 Type II compliant, demonstrating our commitment to cybersecurity and compliance. Being SOC 2 Type II compliant reassures our customers and stakeholders of our dedication to safeguarding data and associated systems. We continuously review and evolve our practices to stay ahead of emerging threats, ensuring that our customers' and stakeholders' information remains safeguarded.
