

Industry Guide

Spectrum Private Networks provides dedicated, reliable connectivity to prioritize great guest experiences and improve business operations.

OUTCOMES THAT MATTER

Private Wireless Networks Enable Improved Guest Experiences and Enhanced Operations

ENHANCED CELLULAR COVERAGE

Deliver seamless, cost-effective public cellular coverage so guests and staff can make phone calls from anywhere inside the building.

EXPANDED COVERAGE AREA

Extend coverage over large, outdoor spaces and connect new, outlying buildings without disrupting existing infrastructure.

SEAMLESS GUEST EXPERIENCE

Enable technology solutions on-site such as cashless payments, service robots, video analytics, and wireless check-in terminals.

DEDICATED & PRIORITIZED BANDWIDTH

Dedicate a portion of the network for operational usage by employees to prioritize and separate activity from guest usage.

SPECTRUM PRIVATE NETWORKS PARTNERSHIP BENEFITS

Private Wireless Solutions Designed and Developed to Solve Your Specific Connectivity Challenges

CONSULTATIVE SOLUTION DESIGN

Advisory-based approach focused on outcomes.

ONE SOLUTION PROVIDER

Fully-managed, turnkey service from design to install to network management.

BROAD WIRELESS TOOLSET

Tailored mix of wireless technologies from low band IoT to CBRS to mmWave.

FLEXIBLE PRICING

Pricing flexibility to meet your financial requirements.

CONVERGED INFRASTRUCTURE EXPERTISE & ASSETS

Expertise in converged wireline and wireless infrastructure.
