GSA OASIS+ SMALL BUSINESS

BALTIMORE, MARYLAND

RightInnovative Technology Concepts, LLC

A joint venture of RightDirection Technology Solutions, LLC (RDTS) and Innovative Management Concepts, Inc. (IMC), providing federal and commercial clients with information technology and program management services that modernize systems, improve business processes, strengthen governance, and create efficiencies through automation.

CORE COMPETENCIES

- Managed IT services using ITIL processes and best practices
- IT system and network development, management, and modernization
- Software and web development using Agile, waterfall, and hybrid methods
- Business intelligence and data analytics, including data management and knowledge management
- Software quality assurance and independent verification and validation
- Cybersecurity, information assurance, compliance, and governance
- Cloud and hosting services, data center professional services, service desk, and infrastructure support
- Program management, acquisition support, business-process improvement, and IT/data governance

DIFFERENTIATORS

RiTC combines RDTS's agile program and talent management experience with IMC's large-scale federal program management, staffing, training, performance measurement, and quality disciplines. The JV provides one accountable interface while drawing specialized personnel, mature delivery controls, and reach-back support from both members.

THE JOINT VENTURE PARTNERS

Innovative Management Concepts, Inc. (IMC)

A Service-Disabled Veteran-Owned Small Business and active federal contractor with more than 120 prime contracts supporting the Departments of Defense, Veterans Affairs, Energy, Homeland Security, Justice, Transportation, Treasury, and the General Services Administration. IMC contributes enterprise program management, staffing, training, performance measurement, quality disciplines, and mature CMMI and ISO-aligned delivery processes.

RightDirection Technology Solutions, LLC (RDTS)

A Service-Disabled Veteran-Owned Small Business with extensive experience in worldwide support services, including information technology, program management, acquisition support, systems and software development, information assurance and cybersecurity, business-process improvement, help desk and network operations, systems and security administration, data center operations, and enterprise support services.
