

Tuition Installment Plan Terms

Payment Authorization for the Pharmacy Technician Career Program

Version 2026-09-v2 | Version date: September 19, 2026

These terms supplement the Student Enrollment Agreement when the student selects APA's direct installment plan. They explain the payment schedule, automatic card authorization, failed-payment process, access consequences, and completion-document hold.

Payment summary

Total tuition	At enrollment	30 days	60 days
\$847	\$399	\$224	\$224

Installment fee: \$0. Finance charge stated by APA: \$0. Total of payments: \$847. The student may prepay the remaining balance at any time without penalty.

1 Agreement to pay

The student agrees to pay \$847. The first payment of \$399 is due when enrollment is completed. The remaining payments of \$224 are due 30 and 60 calendar days after the enrollment date.

2 Automatic payment authorization

The student, or the responsible parent or legal guardian for a student under 18, authorizes Advanced Pharmacy Academy and its payment processor, Stripe, to save the payment method provided at enrollment and to charge it \$399 at enrollment, \$224 in 30 days and \$224 in 60 days, for total tuition of \$847. No additional installment will be charged after the third payment. Authorization remains effective until all scheduled payments are collected or APA confirms a different arrangement in writing. APA may send courtesy reminders by email, and by text message if the responsible party has consented to text messages; reminders do not change the due dates.

3 Failed or declined payment

If a scheduled charge is declined, APA will send written notice by email to the responsible party and may retry the charge. The notice will state the past-due amount, the date on which course access may be paused, and how to update the payment method or pay. The responsible party has five calendar days from the original due date to update the payment method or pay the past-due amount. APA does not charge a late fee. After the five-day grace period, APA may pause course access until the past-due amount is paid. APA will not pause access before the five-day grace period has ended and that notice has been sent. A pause does not extend the one-year access period unless APA confirms an extension in writing.

4 Updating or revoking a payment method

The responsible party may update the card for future payments by contacting Student Support. Replacing a card, revoking authorization, stopping payment, disputing a charge, or discontinuing coursework does not cancel enrollment, constitute withdrawal, or eliminate an amount properly owed under the Enrollment Agreement and Refund and Cancellation Policy.

5 Program access

Program access begins after the initial \$399 payment is successfully processed and enrollment is complete. The student receives one year of access from the processed enrollment date, subject to the Enrollment Agreement, academic and conduct requirements, and the account remaining in good standing.

6 Certificate and PTCE exam-fee voucher hold

APA will not issue the Certificate of Completion or the included PTCE exam-fee voucher, currently valued at \$129, until the student has successfully completed all program requirements and the full \$847 tuition balance has been paid. Voucher use is subject to the examination provider's eligibility and voucher terms.

7 Cancellation withdrawal and refunds

The Refund and Cancellation Policy governs. Stopping payment or participation does not itself cancel enrollment. Amounts already paid are not automatically refundable. Cancellation does not automatically stop scheduled installment payments or create a refund. The amount, if any, that remains due and the amount, if any, that will be refunded are determined under the Refund and Cancellation Policy. APA will stop or adjust future installment charges when required by that Policy. When a refund or adjustment is due, APA will calculate the amount under that Policy and applicable law.

8 Student under 18

When the student is under 18, the parent or legal guardian who accepts these terms is a contracting party for the financial obligations. The parent or legal guardian consents to the student's enrollment, personally agrees to these terms, the Enrollment Agreement, and the Refund and Cancellation Policy, accepts financial responsibility for all tuition and other amounts due, authorizes the scheduled card charges, and agrees to keep payment and contact information current. The minor student assents to these terms as the student and remains responsible for academic and conduct requirements.

9 No guarantee and state requirements

APA provides education and PTCE preparation. APA does not guarantee examination eligibility or passage, certification, state registration or licensure, externship placement, or employment. Pharmacy-technician requirements vary by state, and the student is responsible for confirming current requirements where the student intends to work.

10 Electronic acceptance

Electronic acceptance has the same effect as a handwritten signature to the extent permitted by law. The enrollment system should retain the student's name, email address, acceptance date and time, the exact consent and authorization language shown, checkbox selections, typed signature, the versions of these terms and the other enrollment documents presented, the payment plan selected, IP address and browser information where available, the responsible party and parent or guardian acceptance when applicable, the electronic records consent, and the payment authorization record, including card brand, last four digits, or the processor's payment method identifier.

By selecting the acceptance checkbox and continuing, the student and responsible party confirm that they received and reviewed these terms, the Enrollment Agreement, and the Refund and Cancellation Policy; authorize the \$399 initial payment and two automatic \$224 charges; understand the five-day grace period and possible access pause; understand that stopping payment does not cancel enrollment; and understand that the certificate and PTCE exam-fee voucher require program completion and payment in full.
